Welcome to my world, where sports and technology collide. As a passionate sports fan and tech enthusiast, I have always been fascinated by the intersection of these two worlds. My name is Carlos Eduardo, and I am a 37-year-old software engineer living in Brazil.

My journey with sports began when I was just a young boy. My father was a soccer coach, and I would often watch him train his team. I was mesmerized by the way he strategized and motivated his players. I soon fell in love with the beautiful game myself and started playing soccer with my friends. We would spend hours on the field, practicing our skills and dreaming of becoming professional soccer players.

As I grew older, my passion for sports only grew stronger. I began to explore other sports, such as basketball, tennis, and volleyball. I loved the rush of adrenaline I felt when watching a thrilling match or the satisfaction of predicting a game's outcome.

Around this time, I also discovered my love for technology. I taught myself how to code and started building simple programs. I was amazed at how technology could solve complex problems and make our lives easier.

One day, I stumbled upon an online sportsbook platform, and my world was turned upside down. I realized that technology could be used to enhance the sports experience, making it more exciting and engaging for fans like me. I was hooked.

I spent countless hours studying the odds, analyzing data, and placing bets. I was decent at it, too - I wouldn't say I was the best, but I had my moments. However, I didn't have many expectations because the thrill of the game was what captivated me.

Eventually, I decided to turn my passion into a career. I developed an app that helps people make more informed decisions about their sports bets. It was a side project at first, but it quickly gained traction, and I left my corporate job to work on it full time. Fast forward a few years, and my app, BetMines, is now one of the top-rated sports betting apps in Brazil.

My app's success is largely due to the unique algorithm I created, which analyzes vast amounts of data and identifies profitable betting opportunities. Users love how user-friendly the app is, and my team and I work tirelessly to update and improve it continuously.

However, I realize that with great success comes great responsibility. I make it a point to advise

my users to bet responsibly and within their means. There's a fine line between enjoying the thrill of sports betting and getting consumed by it, leading to addiction or financial problems. Sports betting can be fun and exciting, but we must all be aware of the potential risks and handle it with care.

It's incredible to think back on my journey - from a young boy playing soccer with Friends to creating an award-winning sports betting app. But I'm not done yet! I continue exploring ways to innovate and provide fans like me an even more immersive, enjoyable experience. The future of sports and technology is bright, and Carlos Eduardo, a 37-year-old software engineer from Brazil, is thrilled to be part of it.

## **Crise diplomática entre México y Ecuador: una violación a los acuerdos internacionales**

Una disputa entre los presidentes de Ecuador, Daniel Noboa, y México, Andrés Manuel López Obrador, escaló a una crisis diplomática completa cuando la policía ecuatoriana allanó la embajada de México el viernes por la noche en una muestra inusual de fuerza que expertos legales, presidentes y diplomáticos han considerado una violación de los acuerdos internacionales establecidos durante mucho tiempo.

Con la autorización de Noboa, la policía irrumpió en la embajada para arrestar al exvicepresidente ecuatoriano Jorge Glas, un delincuente convicto y fugitivo que había vivido allí desde diciembre. En los meses previos a que los agentes ingresaran al inmueble diplomático, las relaciones entre los países se tensaron y llegaron al límite.

### **Cronología de los eventos previos al allanamiento**

- 17 de diciembre de 2024: Glas ingresa a la embajada
- El secretariado de relaciones exteriores de México anunció que Glas, quien cumplía una pena por libertad condicional, había llegado a la embajada en Quito y solicitó "ingreso y protección", temiendo por su "seguridad personal y libertad". El organismo informó que se le permitió ingresar "como invitado" sobre la base del marco legal internacional de protección de personas y otras normas constitucionales y legales de México.
- El gobierno ecuatoriano solicitó inmediatamente que las autoridades mexicanas solicitaran a Glas abandonar la embajada.
- 18 de diciembre de 2024: El fiscal general de Ecuador vincula a Glas con un narcotraficante
- El fiscal general de Ecuador, Diana Salazar, alegó que Glas obtuvo la libertad condicional debido a los sobornos que el narcotraficante ecuatoriano Leandro Norero, conocido como "El Patrón", había pagado a jueces y otros funcionarios a lo largo del sistema judicial. Salazar le dijo a un canal de televisión que una conversación obtenida de un teléfono celular vinculado a Norero describió un pago como "favorcito" e indicó que "lo recolectarán cuando el señor Jorge Glas sea presidente".
- 22 de diciembre de 2024: Ecuador advierte a México sobre el asilo
- El gobierno ecuatoriano en un comunicado declaró que "lamentaría" la posibilidad de que a Glas se le concediera asilo y que, si ocurriera, actuaría "con firmeza absoluta basándose en los altos intereses del Estado".
- La cancillería también afirmó que había convocado a la embajadora mexicana Raquel Serur para informarle que otorgar asilo "no sería legal" según la Convención de 1954 sobre Asilo Diplomático.
- La convención establece que "no es legal conceder asilo a personas que, en el momento de solicitarlo, están acusadas o procesadas ante tribunales competentes".
