A five-reeled game by Zitro, this Royal Diamond slot game comes with your choice of up to 50 paylines. There is a 90.28% RTP and players can enjoy plenty of features. You can play with cards, chips and dice for a chance to really level up with 1,000x your stake!

And you can do all of that in one spin. If you want to get to the free spins rounds, all you have to do is land your scatters along the way. You can experience respins for a hugely increased chance of a payout, and you can immerse yourself in the action of the cityscape while you do it. The best bit? You can play for free!

This casino-themed

game has a 5x3 traditional grid set way up high on a billboard. There are shiny lights cast over the game in the shapes of the card suits - hearts, spades, clubs and diamonds on either side. The highest paying symbol in the game is the 7, and this offers players a payout of up to 1,000x the stake in the base game. You'll then have a set of bank notes, a stack of cards, three casino chips and a pair of dice. There are typical card icons here with A, K, Q, J, 10 and 9 and these are the roles of the lower paying symbols. The diamond represents the scatter in this Royal Diamond slot game, and it's important to get to know these before you get started. Before you get going and start spinning, you should set your first Royal Diamond slot bet. You can choose values between 0.01 and 0.15 and you can choose a bet value up to 500. The next thing that you need to choose is the number of paylines and these go between 20 and 50. The bet value can be up to 25 and winning paylines go left to right - unless you have a scatter, of course! This pays out in any position in the 5x3 slot grid. Don't forget that the tables below will display the bet multipliers of the Royal Diamond online slot in the base game. This is also the case in the free spins round!

In spite of some symbols

being grouped, only three, four or five of a kind will trigger a win for the game and the base game payable comes with a 90.28% RTP! You can roll out the wads of spins, too as there are plenty of features that the exciting Royal Diamond slot game has to offer. You can use the Dollar Sign Wilds and these will sub for any symbol except the scatter.

This will give you more than enough possibilities to complete a win. If you land three or more Scatters in one game, you'll get ten free ones! The Dollar sign will become the scatter and awards you with five added spins when three or more of them fall between the reels. You will also see the beautifully sparkly Royal Diamond come up if you're super lucky! Collecting two or more of these and you'll trigger the respin feature, giving you the shot of landing a second win. It'll also act as the Royal Diamond Slot machine wild throughout your free spin games. The only symbol it won't substitute for is the dollar sign. This will also trigger you to seek out more card and chip fun by Zitro. There are so many excellent games to play that you will want to go out and enjoy them all. If you love dice games, there are plenty of those, too, with a similar casino theme!

Zitro has really done a great job to keep this a simple and yet moreish game. You will have 50 paylines to choose from and you can adjust them as you please. Collecting scatters for free spins is a must and it comes with respins to increase your chances of winning. The only real thing left to do is get your reels lined up, your bets chosen and your spins ready to go. You need to hunt out that Royal Diamond slot option, and this is the place that you can do it. The Royal Diamond slot game is one that's timeless - so go and seek if you can find it!
