Carnival Slot Machine

Get ready to party for days on in a dynamic universe that can yield big win and hidden bonuses at every spin, especially when you least expect it.

Carnival is a video slot game designed by iSoftBet that invites players to a unique celebration. Part Brazilian and part Venetian, this game will make you dance all night long and reward your best moves and costumes with some surprise cash rewards.

Without further ado, let's have a good look at Carnival and discover together what makes this game unique and how to make the most of it right from the start.

Let the Music Play

Carnival starts as a party and lasts all night. This festive universe is the main graphic characteristic of the game.

The giant reels and colourful command bar underneath them are placed against a pitch black background. The night has fallen over the city, and all you can see are fireworks exploding high in the sky while rhythmic music accompanies your every move in the game.

Carnival sticks to simple elements but still manages to create a truly unique atmosphere. The time to party has come, and we are here to guide you through your first steps on the reels as well.

Right at the Heart of the Party

Carnival is not embarrassed with unnecessary settings. Instead, the game provides players with a clear gameplay that lets them start betting right away.

The game matrix is composed of 5 reels and 9 paylines, which are where symbol combinations are able to trigger cash rewards. You can use the different (+) and (-) buttons to choose your next wager and activate paylines before you spin the reels. All of these basic settings are accessible at any time during the game, so feel free to adjust your parameters as you see fit and modify your game strategy.

The different cash rewards of Carnival are based on your current wager and the symbol combinations themselves at the same time. If you decide to bet more credits on the reels, you might end up with greater payouts as a result.

There is even a bet max button to help you place the highest bet possible at once. Carnival also features an autospin game mode. Once turned on, it will allow the reels to spin on their own for a fixed amount of time. This will allow you to place the same bet over and over again, with all your payouts adding up as you go.

Dance Until You Drop

The payable of Carnival lists all the reel symbols that you can find during the game. All the winning combinations that you can score consist of 3, 4 or 5 identical symbols appearing on an activated payline.

The classic card icons from the number 10 to the Ace are present on the reels of Carnival. As colourful as ever, you can win between 3 and 300 times the value of your current wager thanks to these very common icons.

The rest of the menu features a cocktail, a feathered hat, a parrot, a flag and a lady in a mask. The largest payout available in the basic payable is the equivalent of 10,000 times your line bet, a big win that you should be aiming for at all times.

Surprises on the Dance Floor

If you are a little ambitious and want to grab as many opportunities to win big as you can, then you need to stay on the lookout for the special reel symbols that Carnival has to offer as well.

First of all, the fireworks are scatter symbols in this game. Regardless of their positions on the screen, they can trigger an extra cash prize. You can win up to 25 times your total bet with them, that is to say 25 times the entire amount of money that you are betting on all paylines.

The Carnival logo is the wild card of the game. Use it in a combination to replace any of the basic reel symbols and win some extra cash. Combinations that contain at least one wild are also worth twice as much than usual.

A Dynamic Game with Simple Features and Some Big Wins

Carnival is a festive and dynamic slot game, with a solid gameplay and a few big wins ready to be grabbed by the most ambitious players out there.

The basic payable is already quite generous, and if you couple it with the possibilities that the special symbols offer then you can get a feel for the potential of Carnival. Do stay on the lookout for wilds to double up your next rewards.

Try sticking to straight up numbers or placing even money bets such as red/black and odd/even. Over time, players may develop their own system of betting based on a strategic plan.
