Since Fortune Tiger is a medium volatile online slot game, it brings to the table the best of both 8 worlds. The winnings will not be low, but neither will they be too high. You can expect a steady flow 8 of wins that are a relatively good size. This game is especially ideal for players who want to play a 8 little more safely, by trying to rope in as many wins as possible thanks to a high payout percentage.

As such, 8 this game already has all the good elements to help you have an entertaining time. As always, the best advice 8 I can provide readers is to always have solid bankroll management in place. Set a budget before you sit down 8 to play. Most importantly, don't wait until you make a deposit or start playing to have win and loss-limits in 8 place. Once you start playing games, you will be sucked in and will likely lose track of time.

Manage your bankroll 8 properly and stay in control of your gaming session.

Fortune Tiger Slot Bonus Features

Since Fortune Tiger has a very basic reel 8 setup, it does not host a barrage of in-game features, but you can still find all the basic and staple 8 favourites. These include:

Wild symbol

A cheerful dancing tiger acts as this game's wild symbol. Wherever it lands, it will help substitute 8 other symbols in a bid to create more winning combinations. It can land on any of the trees and replace 8 any symbols.

Fortune Tiger Feature

During any spin, the Fortune Tiger feature may be randomly activated while the reels are spinning. During 8 this feature, a symbol will be randomly chosen (bar the wild symbol). The reels will then only consist of this 8 randomly chosen symbol, leading to explosive wins.

After all the reels have come to a stop, if there is one or 8 more extra symbols (either a randomly chosen symbol or a wild symbol) popping up on the reels, then all the 8 reels will respin again. All previous symbols that showed up on the reels will stay in place.

10x Multiplier

When all the 8 symbols on the reels play a part in generating a winning combination, then the win will be multiplied by 10x. 8 There is still a chance of scooping up to 2,500x your total bet.

RTP & Volatility of Fortune Tiger

When it comes to the payout percentage and the volatility levels of a game, Fortune Tiger seems to do exceptionally well on both fronts. It seems to have found the right balance to bring to players a solid game with some predictability.

The Fortune Tiger slot game enjoys a slightly higher-than-average payout percentage of 96.81%. It also enjoys medium variance. For those of you, who don't know how volatility works or is, let us provide you with all the necessary information.

Volatility refers to the risk factor that is associated with a game. A low-volatile online slot game is a game that is considered low-risk. You can expect a steady flow of wins, yet quite low. On the other hand, a highly volatile slot game pays out substantially, albeit on an infrequent basis. In the case of Fortune Tiger, the variance level is set to medium. You can enjoy some benefits of both low and high but on safer grounds and terms. The medium variance paves the way for a solid and somewhat sizeable win on a semi-frequent basis, which is not bad at all.

Obviously, the payout percentage is not guaranteed. The payout percentage is an indicator of how much the player is hypothetically supposed to get back the longer they play. As a player, use these as indicators but also take them with a pinch of salt. It is also important that you only play Fortune Tiger at licensed and regulated online casino sites to ensure that you have a safe and fair online gambling session. You can read casino reviews of all the popular gambling sites right here at JohnSlots.

Fortune Tiger Slot on Mobile

Like all modern software game developers, PG Soft knows that players want to enjoy gaming on the go. Not everyone wants to play on their desktop PC or laptop, so many players love to play directly on their mobile phone or tablet.

The Fortune Tiger slot game was created with the latest advances in technology. That means it was created with the latest HTML5, making it fully compatible and optimised to work on any device, regardless of the operating system.

As long as you don't have an old phone and so long as it can connect to the internet, you should be able to enjoy playing the Fortune Tiger slot game in all its glory. You may be required to download a special mobile casino app from some online casinos, but in the large majority of cases, this game works smoothly on your web browser.

It does not matter what screen size you have, as the game will adapt accordingly without losing any graphics or impeding in any way on your gaming session. Similarly, it does not matter whether you have an iOS or an Android phone as the game should work without any issues. The text within the game and the buttons are all enlarged for your convenience, so you can play with ease and without any issues.

Conclusion

The Fortune Tiger slot game is a fun game that was created by a leading game developer in the online gambling market. It may have a very basic three-reel setup, but some players may still enjoy the fruit and benefits that this game brings to the table.

First off, this is a super colourful and vibrant game designed to entertain from the moment you start playing it. Again, this is a basic game, so beginners may appreciate it more than seasoned players. There are no free spins bonus features, which may put off some players altogether. Nevertheless, it still comes with wilds and multipliers, which can reel in wins on a regular basis thanks to the medium variance and slightly higher payout percentage. The Fortune Tiger mechanic is also a welcome addition that can lead to rather massive wins.

Overall, there are all the right elements of an entertaining online slot game. I just wish that more in-game features could have been added to the formula, to make it a little bit more engaging.

Jules Koundé insta a votar en segunda vuelta de elecciones en Francia

Jules Koundé, defensa de la selección francesa de fútbol, mostró su decepción por los resultados de la primera vuelta de las elecciones generales en Francia, en las que el partido de extrema derecha encabezado por Marine Le Pen obtuvo el 33% de los votos. Koundé animó a los que aún no han votado a hacerlo en la segunda vuelta y calificó las políticas del partido de Le Pen como "contrarias a nuestros valores".

La coalición de izquierda Nueva Fuerza Popular (NFP) obtuvo el 28% de los votos y la coalición centrista del presidente Emmanuel Macron, Juntos, obtuvo el 21%. Koundé, quien fue nombrado el mejor jugador del partido en la victoria de Francia por 1-0 sobre Bélgica en los octavos de final del Campeonato de Europa, instó a los franceses a no quedarse de brazos cruzados y a votar en la segunda vuelta para evitar que el partido de extrema derecha llegue al poder.

Preocupación por el aumento del apoyo a la extrema derecha

Koundé expresó su preocupación por el creciente apoyo al partido de extrema derecha, que ha prometido endurecer las políticas migratorias y llevar a cabo una reforma del sistema de bienestar social. "Estoy decepcionado de ver la dirección que está tomando nuestro país, con un gran apoyo para un partido que está en contra de nuestros valores de convivencia y respeto, un partido que busca dividir a los hombres y mujeres franceses", dijo Koundé.

"Pero todavía no ha terminado: tenemos una segunda vuelta. Podemos tratar de encontrar a aquellos que no han votado y persuadirlos para que vayan a votar y asegurarnos de que el partido de extrema derecha no llegue al poder. Buscan quitarnos nuestra libertad y quitar el hecho de que vivimos juntos. Y esa es mi postura política", agregó.

Deschamps insta a mejorar la eficacia en el ataque

Mientras tanto, el entrenador de la selección francesa, Didier Deschamps, instó a sus jugadores a mejorar su eficacia en el ataque después de que Francia derrotara a Bélgica por la mínima diferencia. Aunque Francia fue superior en el partido y creó varias ocasiones de gol, solo uno de esos disparos terminó en la red, gracias a un gol en propia puerta de Jan Vertonghen en el minuto 85.

"Tenemos que trabajar en la eficacia en el ataque. Hoy tuvimos seis o siete ocasiones claras de gol. Incluso si el gol fue en propia puerta, alguien tiene que dar el último toque y meterla en la portería, así que está bien", dijo Deschamps.

"Estoy muy orgulloso de lo que hemos logrado. Estamos en cuartos de final y eso es lo que cuenta. La gente espera eso, pero no hay que restarle importancia; hay que disfrutar este

momento. Lo apreciamos; nada se logra simplemente con hacer clic en los dedos", agregó.
