Every bettor hopes that Lady Luck will be on their side, but a profitable day at the office requires more than good fortune.

Luck can't be ignored completely but to win at sports betting, skill and an understanding of probability is essential.

This guide examines the roles that luck and skill both play in a winning bet.

The Role of Luck

To calculate your potential payout on an underdog, all you need to do is multiply your stakes (the amount of money you wagered) by the value resulting from the moneyline odds divided by 100.

Put simply: Potential profit = Wager x (Odds/100).

Two extra places will go to the best performing leagues in Europe this season. Realistically, the additional places will go to two nations out of Germany, Italy, Spain and England. This means the team who finishes fifth in the Premier League this season could automatically qualify for the Champions League.
