While luck certainly does have a part to play in Blackjack, there is a lot of skill that goes into playing the game. How much skill or strategy you use depends on the time and effort you are willing to put into learning these skills. One such skill is card counting-not like by casinos but certainly not illegal.

In blackjack, the cards that are better for the player are the high cards, specifically the 10, J, Q, K, and A. This is because these cards increase the probability of getting a blackjack (an Ace and a 10-value card), which pays out at a higher rate.

Rules & Interface

The Faust online slot interface is relatively simple and easy to understand. The information boxes and buttons are at the bottom of the screen. From the information boxes, you can see your balance level and the rewards you have earned. The buttons are 4 in total. If we briefly explain these:

Autoplay: Once you click this button, the reels start to spin until you click again automatically.

Paytable: You can see the payout values of the online Faust slot machine's symbols and rules from this table.

Gamble: This button launches a bonus round, which we will explain below.

Start: Press this button to rotate the reels once.

The buttons that you can use to set the betting levels and line numbers are also here. Faust is a game with a total of 10 pay lines and five reels. However, it is possible to reduce the number of pay lines. The betting levels range from a minimum of 0.10 per spin to a maximum of 500 coins.

The demo version of the game offers 500 complimentary coins. So when playing for free, we recommend that you do not exceed the minimum bet amount. More benefits offer the free Golden Goddess slot & bonus games with bonus rounds included in the gameplay. Jackpot is also included with wild and scatter symbols.

You can start the game by pressing the "Start" button. To qualify for a prize, you have to place at least two identical symbols on a pay line. Faust has a total of 10 symbols. The symbols shown with a picture are high valued and pay between 250 – 250,000 coins. The symbols shown by the game card signs are low valued and pay up to 7.500 coins. The more symbols you put side by side, the higher the prize amount. As we will explain below, there is also a special symbol. Prize amounts vary according to betting levels. The highest prize is 250,000 coins, but you need to play with the highest bet level to win this amount. In other words, if you are playing with a minimum bet, the number of rewards will be much lower. For this reason, if you play with real money, we always recommend you to place the maximum bet.

Faust Slot Machine Bonus Features

Slot machine Faust has only one special symbol. Scatter / Wild: This symbol, pictured with Dr. Faust's picture, counts as wild and scatter. So it has the following features:

It can replace all other symbols in the game. You can use it to complete a winning combination. It pays between 1,000 and 100,000 coins. And it does not have to land on a pay line for this.

If you manage to get three signs at the same time, the free spins bonus round starts. In this round, ten free spins are awarded. Before the round starts, a randomly selected symbol gains the "expand" feature. So it can fill the reel the entire reel it appeared on. This increases your chances of winning at a remarkable rate.

The Faust slot machine, as mentioned above, also has a gambling round. After winning a prize, you are asked if you want to start this feature. This is a mini-game based entirely on luck. You are asked to guess the colour of a face-down play card. We do not advise you to play this feature, as you are at risk of losing all your winnings.

Casual Play or Real Money Gambling

Free-slots-no-download offers you the chance to play this game for free or real money. Faust slot machine can be played for practice or casual gambling and requires no download. If you want to try your chances with real money, we also offer you a list of the best online casinos out there.

Faust Volatility: How does it work?

If you are playing the demo version just for fun, you can skip reading this part. If you are playing for real money, and your bank balance is on the line, make yourself very clear. If a slot machine lets you win a good number of times, but the value of each prize is comparatively small, then this slot has less volatility.

However, a highly volatile slot will give out prizes that are relatively less in number but immense in value. Players who enjoy taking risks and are supported by a healthy bankroll can go for highly volatile slots. They also need to be very patient and not expect immediate results. Players who either abhor risks or lack a sturdy bankroll should stick to low volatile games. The Faust slot, however, is a highly volatile game.

A new screen containing a playing card opens up. But you cannot see this card. Now try to guess its colour – red or black? If your guess is right, you double your prize. But if it's wrong, then sorry, you lose your winnings. So it is better to play this round only if your winnings are small. In such a case, even if you lose, you won't have much to regret.
