The Ruby Megaways is an online slot game made by iSoftBet with up to 117,649 ways to

win. The slot machine has six reels, each of which can display up to seven different

symbols. There are features like cascading reels, mystery symbols, free spins, and

increasing multipliers. This medium/high volatility slot has a 96.11% RTP and a 35,000x

jackpot.

How To Play

When you play The Ruby Megaways slot machine, you'll be able to

spin 6 reels over 2-7 rows, making the grid a little larger than in earlier Megaways

designs. There are 117,649 ways to win with the extra row above reels 2, 3, 4 and 5.

For each spin, you can wager anywhere between 0.20 and 20. Megaways and slot players

will recognise the payable, with low- and high-paying symbols. For a payout, players

need to line up at least three symbols across from the leftmost reel. The highest

paying symbol, a ruby, pays out when it appears twice in a payline.

Six of a kind pays

off anything from 0.8x to 1.75x your wager for low-valued symbols, and 2x to 50x for

high-valued symbols. Wilds, or mystery symbols, show only on the top tracker above the

reels and substitute for regular symbols. There is a maximum payout of 37,500 times the

wager when using all available bonuses and features. You can take advantage of a

cascade, a multiplier, a mystery symbol, and free games. Each win activates the

cascades, which are perfectly suited for Megaways. The winning symbols are mechanically

fractionated out and the other symbols cascade into their place.

Players must watch out

for these mystery symbols with a question mark. Except for the bonus and Wild symbols,

they change into the corresponding symbol. With four or more bonus symbols, you enter

the free spins bonus round. You'll get between 12 and 27 free spins, during which all

wins and cascades cause your win multiplier to go up. Your multiplier can go up as high

as it wants to.
