A participation of Ponte Preta in the Paulistão has motivated not only the fans but also the squad for the dispute of the Brazilian Championship Série B. According to defender Castro, the level of the state championship was high and the team has what it takes to fight for promotion in the national competition. "It's a difficult and different championship, but I do stress that we played a very strong Paulista Championship and there's a parameter to be taken. We had a good championship and only went out to a team that's fighting for the title. We know our capabilities and I believe we'll have a great championship", he projected.

Ponte Preta advanced in Group B, which included Palmeiras, Água Santa, and Guarani. However, they were eliminated in the quarter-finals by Palmeiras, the Paulistão runner-up. Castro praised the squad and stated that the arrival of new players has increased their confidence. "We're starting a new journey with new work. We're coming to fight and battle for promotion. It's a very capable group, and we've received even more reinforcements. I believe that will make a difference. We'll work hard to achieve our goal", he concluded.

Ponte Preta has already officially announced the signings of defender Joilson, midfielders Lucas

Buchecha and Dudu Vieira, and forward Everton Brito, and has other advanced negotiations. The Série B is scheduled to begin on April 19, but the schedule is yet to be detailed. Ponte Preta will make its debut at home, at the Moisés Lucarelli, in Campinas (SP), facing Coritiba.
