How to use Hold'em Manager to Maximize your Profits

Last week, we wrote about the

advantages of tracking software and HUDs, 3 and I recommended Hold'em Manager as the software of choice.

This week, we go further in depth regarding how to use 3 Hold'em Manager to improve your play and maximize your profits.

View the Best HUD friendly

Poker Sites

The Reports Tab

The "Reports" Tab 3 is your home for reviewing your own play.

From here, you can generate a results graph and a variety of 3 reports for your play.

In

your reports tab, you will want several key pieces of information about your results:

Winnings, Winrate, 3 Rake, and Rake in bb/100.

For gameplay stats, you'll want VPIP, PFR,

3Bet, Fold to 3bet, Aggression Factor, Open Raise %, 3 Cbet % and Fold to Cbet % at the minimum.

WWSF (won when saw flop) and WTSD (went to showdown) percentages 3 can be useful as well. Do some research on your own to find the normal ranges for these values so 3 you can understand what's high, what's low and what's optimal.

In the image below, you'll

see the tab is sorted by 3 stake. This allows you to track your results and gameplay at each individual limit.

Also note the filters (Date Range, Game 3 Type) at the upper right position of the window. Explore these.

There are a massive number of filters you can use 3 to study your play under even the most specific conditions.

For example, you can study how you play suited connectors OOP 3 after flatting a preflop raise and check-raising the flop against two opponents.

Hold'em Manager's Reports Tab sorted by stake.

Another very useful 3 strategy is to sort by position, so you can study your winnings at each position to identify areas of strength 3 and weakness.

You'll also

notice the "HUD Settings" box. We could write an entire series on optimal HUD configuration.

For now, you 3 want it to display Player Name, Hands Played, VPIP, PFR, 3bet, Fold to 3bet, Aggression Factor, Cbet and Fold to 3 Cbet. That's it.

Get

comfortable with just those stats for now, and keep in mind that you should never make judgments 3 based on stats like Cbet and 3bet until you have several hundred hands against a player.

Hold'em Manager's Report Tab sorted 3 by position

Hold'em Manager also

generates excellent graphs that allow you to share your results with others or visualize your progress. 3 These graphs can be customized to show specific information based on your filters.

Hold'em Manager's Results Graph

The Opponents Tab

The real fun

3 is learning how to use Hold'em Manager to exploit your opponents. The "Opponent's" tab lets you study your opponents to 3 find leaks.

The Summaries Portion of the Opponents

Tab

This is what the Opponents Tab looks like when set to "Summaries". You 3 receive a detailed summary of the people you've played against. Use this to quickly scan for players with irregular stats.

The 3 graph in the bottom left allows you to see how that player compares to all of the players in your 3 database. From here, you can get an idea if people are playing too aggressive, or too tight.

The "Player Analysis" section 3 puts

a focused lens on any opponent. You can sort with a variety of filters to find a massive variety 3 of information on any opponent. You can find your opponents' hands in specific situations to study their gameplan in detail.

The 3 Player Analysis section of the Opponent's Tab

Conclusion

Hold'em Manager is a tremendously useful tool that every grinder should be using in 3 their play.

In this article, we have outlined broad ideas

behind how you should be using Hold'em Manager to keep track 3 of your own play, configure your HUD and find your opponents' leaks.
