Live Roulette is much more realistic and exciting than a standard roulette in any online casino. You communicate not to a machine, but with a professional casino dealer in a brick-and-mortar casino among real gaming tables. The whole game takes place right on your screen directly under your personal supervision.

You can play live roulette right

here for free, no deposit required.

The rapid development of Internet technologies and

online casinos makes it possible to play roulette with a live dealer staying in the comfort of your home. Modern online casino software and live broadcast technology help to implement this exciting opportunity. Actually, a player may watch on the screen the real roulette table and the real roulette wheel spun by the professional dealer. So you can bet and watch the action, as in any brick-and-mortar casino.

Live Roulette Advantages

Live Roulette is the

opportunity to play one of the most exciting casino games right from your home. But your home comfort is not the only advantage of a live roulette game. You may play your favorite game anytime, day or night, eat while playing pancakes, sip your favorite beer and wear your lucky white shorts with red hearts — nobody minds it.

The main advantage

is that the dealer is alive and you can control the game and his actions. You do not need to rely on a random number generator (RNG), which is used to control the result of all standard online casino games.

Random Number Generator (RNG)

When you hear about a random number generator, you may get the feeling that it was invented specifically for online casinos. No, it was not. In fact, the RNG technology was first used long before in brick-and-mortar gambling houses. Do you remember old video poker machines, or slot machines? Well, it was random numbers generators. Some people still are skeptical about how fair the games based on RNG are. But don't blame RNG — it is a machine — blame the owners.

Modern online casinos use the built-in RNG technology which is checked by the independent auditors. Each casino is ensuring that in all offered games the RNG is good. After all, the reputation costs more than some hundreds of dollars gained through deception.

Live Game Online

RNG technology is of a high level of security, but many players do not quite understand it and, consequently, do not trust RNG games fully. For doubting players, a live game is an ideal option. You watch a professional croupier rolling the ball and spinning the real roulette wheel, so you just bet and relax.

Video

cameras broadcast every dealer's step and move live, so you literally control the game.

Live Roulette creates the true atmosphere of brick-and-mortar casinos in Las Vegas and Monte Carlo. So, get comfortable and fix yourself a favorite drink, check your bankroll — if it is OK, the game is ready for you.

Using the dealer's signature\n\n One way of predicting where the ball might land in a game of roulette is to look for the dealer's signature, also known as sector slicing. This theory suggests that the dealer may hit the same numbers more often due to the way in which they spin the wheel.

A roulette game is strictly random and any hope of actually getting an edge at the game died when the new (now relatively old) computers took over the wheels.

Gaza: La guerra devastó el sistema educativo y los sueños de miles de estudiantes

Amjad Abu Daqqa, de 16 años, era uno de los mejores estudiantes de su escuela en Khan Younis, sobresalía en matemáticas y en inglés y estaba solicitando una beca para estudiar en los Estados Unidos cuando estalló la guerra en la Franja de Gaza en octubre pasado.

Los maestros recompensaban sus buenas calificaciones con viajes a sitios históricos locales o al muelle, donde veían barcos y tomaban {img}gráficas del atardecer. Soñaba con estudiar medicina como su hermana mayor, Nagham, que estudió odontología en la Ciudad de Gaza.

Pero su antigua vida y sus viejos sueños ahora parecen muy lejanos. Su escuela fue bombardeada, muchos de sus amigos y maestros están muertos, y su familia huyó de su hogar en busca de seguridad en Rafah, junto con más de un millón de personas.

"Todo en mi pueblo se ha perdido para siempre", dijo Amjad. "Siento como un cuerpo sin alma, y quiero volver a sentirme esperanzado."

Ningún final de la guerra en Gaza está a la vista

Aun si hubiera un final de la guerra, haría poco para cambiar las perspectivas educativas sombrías de más de 625.000 estudiantes que la ONU estima viven en el territorio.

Siete meses de guerra han destrozado todos los niveles de educación allí. Más del 80 por ciento de las escuelas de Gaza han sido severamente dañadas o destruidas por la lucha, según la ONU, incluida cada una de las 12 universidades.

Eso ha llevado a los críticos, incluidos el ministerio de educación palestino y más de dos docenas de funcionarios de la ONU, a acusar a Israel de un patrón deliberado de dirigir ataques contra instalaciones educativas, de la misma manera que ha sido acusado de dirigir ataques contra hospitales.
