conteúdo:

Deal one up card to each player, followed by a down card to the dealer. Then deal a second up card to each player, followed by the dealer's up card. Make sure the cards are laid out diagonally so that both numbers on each card are visible. This makes it easy for both the player and the dealer to read the cards.

[jogos de baralhos gratis paciencia](#)

If the dealer is showing a Two, Three, Four, Five, or Six, he is more likely to bust. The Five and the Six are the cards most likely to lead to a busted hand for the dealer. In this case, the player doesn't have to take big risks to try to get closer to 21 -- he simply needs to avoid busting himself.

## Ismail Kadare: Albanian Novelist and Poet Died at 88 Years

Ismail Kadare, the Albanian novelist and poet who wrote only his native Balkan in the map of world literature, creating works often obscure and allegorical that criticized the totalitarian state of his country, died on Monday in Tirana, Albania. He was 88 years old.

His death was confirmed by Bujar Hudhri, the director of the Onufri House of Editors, his editor and publisher in Albania, who said he suffered a heart attack at home and died in a hospital in Tirana, the Albanian capital.

In a literary career that spanned half a century, Mr. Kadare (pronounced kah-dah-RAH) wrote dozens of books, including novels and collections of poems, short stories and essays. He gained international fame in 1970 when his first novel, "The General of the Dead Army", was translated into French. European critics praised it as a masterpiece.

The name of Mr. Kadare was mentioned several times for the Nobel Prize, but the honor escaped him. In 2005, he won the International Booker Prize (now the International Booker Prize), awarded to a living writer of any nationality for general achievements in fiction. The finalists included literary titans such as Gabriel García Márquez and Philip Roth.

At the award ceremony, John Carey, a British critic and panel president, called Mr. Kadare "a universal writer in a tradition of narrative storytelling that goes back to Homer."

Critics often compared Mr. Kadare to Kafka, Milan Kundera and Orwell, among others. During the first three decades of his career, he lived and wrote in Albania, at that time under the rule of one of the most brutal and eccentric dictators of the Eastern Bloc, Enver Hoxha.

To escape persecution in a country where more than 6,000 dissidents were executed and some 168,000 Albanians were sent to prisons or labor camps, Mr. Kadare walked a tightrope of political maneuvering. He served 12 years as a deputy in the Albanian People's Assembly, and was a member of the Union of Writers of the Regime. One of his novels, "The Great Winter", was a favorable representation of the dictator. Mr. Kadare later said he wrote it to please the regime.

In contrast, several of his more brilliant works, including "The Palace of Dreams" (1981), subversively attacked the dictatorship, evading censorship through allegory, satire, mythology and legend.

Mr. Kadare "is an supreme interpreter of psychology and the physiognomy of oppression", wrote Richard Eder in The New York Times in 2002.

Ismail Kadare was born on January 28, 1936, in the Albanian town of Gjirokaster. His father, Halit Kadare, was a public official; his mother, Hatixhe Dobi, was a homemaker of a wealthy family.

When the communists of Hoxha took power in Albania in 1944, Ismail was 8 years old and already immersed in world literature. "At 11 years old I had read Macbeth, which hit me like a lightning bolt, and the Greek classics, after which I had no more power over my spirit", he recalled in a 1998 interview with The Paris Review.

Nevertheless, as a teenager, he felt attracted to communism. "There was an idealist side to it", he said. "You thought that certain aspects of communism were good in theory, but

podías ver que la práctica 6 era terrible."

Después de estudios en la Universidad de Tirana, en la capital albanesa, Sr. Kadare fue enviado para 6 estudios de posgrado al Instituto Gorky para la Literatura Mundial en Moscú, que más tarde describió como "una fábrica para 6 fabricar hackers dogmáticos de la escuela del realismo socialista."

En 1963, aproximadamente dos años después de su regreso de 6 Moscú, "El General del Ejército Muerto" fue publicado en Albania. En la novela, un general italiano regresa a las montañas 6 de Albania 20 años después de la Segunda Guerra Mundial para desenterrar y repatriar los cuerpos de sus soldados; es 6 una historia de Occidente avanzado que irrump
