Roulette is an intriguing game that is played throughout the world. The large payoffs that are

possible for small wagers stimulate the interest of the expert as well as the novice player, playing Roulette in Vegas.

The rules of Roulette - different players use different colored chips so the bets are not confused.

The value of your chips is determined by the price you pay for them. When you're done playing

make certain to redeem your chips at the same table you were playing at. Once you leave that

table no one will know the value of your chips.

Each spin of the wheel provides a multitude of options for the player. A player may bet on single

numbers, rows of numbers, or on adjacent numbers. A player also may play colors, odd or even

numbers, among others. A bet on a single number pays 35 to 1, including the 0 and 00. Bets on

red or black, odd or even pay 1 for 1, or even money.

We're proud to offer Roulette in three variations. In addition to our popular American-style Roulette

game with 36 numbered slots, a 0 and a 00, we also offer our European Roulette, which has a

single 0 along with the standard 36 numbers, and is a favorite among our international customers.

We also offer an exciting new version, where an additional betting option is added.

The diagram indicates the Roulette rules payout for single chip bets and the many combinations

available to you. The dealer will be happy to explain any of them. The exact placement of the chips determine the bet being made. Each player is responsible for the correct positioning of their wager on the layout regardless of whether the bet is placed by the dealer.
