Case 321: A pioneering spirit in the world of sports betting

I am Thales Alves de Oliveira, and this is my story as a 29-year-old Brazilian entrepreneur who revolutionized the sports betting industry with my app, 83 bets. I grew up in a low-income household with a passion for soccer, coding, and Numbers. In 2024, I dropped out of college to pursue my dream of creating an app that would allow users to bet on the outcome of soccer matches. I faced many challenges, but my determination and resilience paid off when 83 bets became a reality.

Background of the case:

The sports betting industry in Brazil is traditional and cartelized, controlled by a few operators who offered few markets and poor odds. Seeing an opportunity to disrupt the status quo, I set out to create a user-friendly and efficient app that could cater to the Brazilian market.

Description of the case:

My innovative approach was to focus on live soccer betting, allowing users to place bets during the match. This feature revolutionized the industry and brought new life to sports betting. My app offered unique features like fast payouts, exclusive promotions, and increased odds. Users could bet on different aspects of the game, such as corners, yellow and red cards, and goals.

Implementation:

With no investment from venture capitalists or angel investors, I developed the app with a team of three developers. The project required intense research and analysis of European and American betting apps. We went through a complex and strict regulatory process but eventually obtained approval from gambling authorities.

Gains and conquests:

Our efforts paid off, and we reached new heights. 83 bets jumped into the market and immediately captured 3% of the sports betting market, surpassing traditional and rooted competitors. The odds provided to customers were the ones that made the biggest difference. My app stood out by delivering what others didn't, which created success. We defeated competitors and achieved a market value of R\$1.15b.

Recommendations and Lessons:

My journey might inspire other entrepreneurs, but it also teaches the following lessons:

Focusing on live sports betting was my jackpot. Before developing the app, thorough research is

vital. As I always said,

“Information gives people power.” Don't just rely on thought. Develop yours.”

2. Innovation triumphs:

In a traditional market controlled by large actors, innovation was crucial to success. Identify gaps in outdated markets, and innovate to generate significant profits and market share.

3. Regulation is vital: Strict regulation, obtaining permits, meeting requirements, and licensing. To comply, innovate within the law, comply and plan the project.”

Competition exists for a reason: Confront and embrace it, as it sharpens and elevates skills.

Differentiate your offering and provide what competitors can't.

Insights of Psychology applied in management:

The creation of 83 bets involves many psychological insights and market research to understand better people's behavior and explore their passion for soccer and adrenaline. An excellent entrepreneur should research, identify gaps, and enhance human experiences. 83 bets focused on out-of-the-ordinary odds and predictions, which increased its success.

Market Trends Analysis:

83 bets was essentially "the first-mover" of the product. In Brazil, for the first time, we released a dedicated exclusively for soccer app. While competitors adapted slowly, we seized the opportunity, which resulted in this space. Technological innovation helps the 83 bets adapt quickly to human behavior, differentiate, and deliver odds needed.

Conclusion:

The 83 bets met the needs of sports fans who desired an in-play sports betting platform catering explicitly to Brazilian consumers. My journey paved the way for new entrepreneurs to revamp and rebrand ancient industries and seize the opportunities that gaps give in various markets. Our efforts paid off with a market value of R\$ 1.15b and 3% market share. This case demonstrates how ground-breaking entrepreneurship fosters economic and professional growth.
