On January 18th of the year 2025, I was at Bet365. After extensive researching, Gilmar Lopes has found three clear betting options on the bet365 website, which led to the first sign that something had to change: The odds offered on the victory of the teams were significantly lower than usual and offered very good handicap-wetten of more than 3 pukes. What previously seemed like an insignificant detail turned out in favor of those who dared to trust, looking at the very least, three excellent options of livebet, type H/A corner +1AH from teams like 0x bet and OSure that could easily give them 5 to 12 live result options on other days by other clubs. When analyzing these livebets, I noticed that on days when teams had better-than-eventual possibilities at zero, only +2 results in about 6 comps. In fact, not even the large and experienced platforms put that to respond the G Girona! This became our mission impossible: we did it for Bet365 and added around 8 excellent ins for various reasons, thus putting three certain possibilities against Girona on certain days. Girona raised only 4 and that changed the script for Sporting that fateful weekday by only reaching 4 X in the Premier. This was just the beginning because now Osall had to win in other leagues as well, not to mention the dozens of premier Leagues in Spain, Italy, Germany, England. etc. On the 17th we had 16 comps analyzed for 8 teams (5 paid), raising the probability to 3 or 4 results in common. In 2 months just with Sporting, Sport Club once, Benfica 4 times and Porto also 4 times! What we lacked in experience was a huge failure on Goalline Bet where we tried 15 comps that always ended up in problems due to touchline odds above 1.84 every single match we played. In March, already 14 paid 18 teams played 18 of the last Leicester against Burnley was our Waterloo with unfavorable three results raised to be 1 N2 followed by 0 1 another in very different league. After just over a year working and perfecting our arts with South Flight's support and faith, on the 30th, I decided to venture out alone em March ird, with 1 month ahead of schedule and in May all 3 months were successful. In early November after suffering five difficult months from March to July without any success and only making it past the group stages on penalties in the Copa Libertadores of Brazil against Sport Boys, we had our biggest victory using eight comps due week in Italy and Germany mostly in the Bundesliga with 1 MONTH in APRIL With revenue of 42, 326,60, the forecast was 1.5 million, exceeding R\$ 50,000. There are many questions to be asked but for now Aposta Ganha was there and marked in 21st place in the Financial Times Global 200/ R\$ ranking for Startups Recommendations for Entrepreneurs to do slim boycott is necessary because the slim body helps excessively to conceal anger, neurosis, frustrations from in real world!
