Conclusão

Existem cassinos online que pagam dinheiro real no Brasil, mas é importante escolher um cassino online confiável e seguro. Alguns dos cassinos online mais populares no Brasil incluem Bet365, 888 Casino, William Hill, Jackpot City e Spin Palace. Esses cassinos oferecem jogos variados e garantem pagamentos seguros aos jogadores brasileiros.

How to Play PLO - A Beginner's Guide to Pot-Limit Omaha

February 11, 2024 Matthew Pitt

Senior Editor

Omaha hold'em, often called simply Omaha, is an exciting poker game that is strikingly similar to Texas hold'em, although it does have a number of differences to set it apart.

Unlike Texas hold'em, a game in which the preferred betting structure is no-limit, the most popular betting structure of Omaha games is pot-limit.

Games of

this type are referred to as pot-limit Omaha, abbreviated as PLO poker.

The first major

difference you'll instantly be aware of when playing PLO poker instead of hold'em is that each player is dealt exactly four hole cards instead of two.

However, players

don't use all four hole cards to make a hand because they can only use two of them.

In

fact, players must use exactly two of their hole cards along with three of the community cards to make a five-card poker hand.

Let's see an example:

A player holds A

K Q J — a strong starting hand in pot-limit Omaha.

— a strong starting hand in

pot-limit Omaha. The five community cards read K10632

In a pot limit Omaha game,

the player does not hold a flush despite holding the A.

Neither does the player have a

Broadway straight.

The player actually only has a pair of kings with an ace-kicker.

This may seem a little confusing when you first sit in a PLO game, but it quickly becomes second nature. You just need to play enough Omaha hands to get used to this and to learn how to read the board correctly.

What is Pot-Limit Omaha?

To know

more about the basics of the game, you can visit these pages:

Main Differences Between

Omaha Poker and Texas Hold'em

Besides starting with four hole cards rather than two,

there are a few more differences between Texas hold'em and Omaha games.

The Action

Preflop

One such difference is that preflop hands in pot-limit Omaha run much closer in terms of poker equity than they do in hold'em.

In Texas hold'em, a hand such as A A

is an 82.36% favourite over K K before the flop hits the board.

, a hand such as

is an 82.36% favourite over before the flop hits the board. In Omaha poker a hand such as AA76 will only beat KKQJ 59.84% of the time.

This closeness in preflop hand

strength is one factor leading to players playing more hands, seeing more flops, and PLO being more of a drawing game than hold'em is.

This creates larger pots with the

majority of the chips often going into the pot after the flop is dealt.

Hands

Strength

Another key difference is the fact you generally need a stronger hand at showdown to win at pot-limit Omaha than you would in a Texas hold'em game.

In hold'em,

it is not uncommon to win a hand with two pair or even a single pair. In Omaha poker, these hands are rarely the best by the river.

The Betting Structure

The other

significant difference between pot-limit Omaha and no-limit Texas hold'em is the betting structure.

In no-limit hold'em, players can bet any amount they wish, up to the size of their stack.

Omaha poker, however, is "pot-limit," meaning players can only bet the total size of the pot including their call.

Need help to understand the concept of pot-limit games? Let's look at another example.

Imagine a PLO poker hand that is contested between two players.

The pot has R\$100 in it, which means the maximum the first player can bet is R\$100.

When it is the second player's turn to act, that player can only bet a maximum of R\$400.

This is worked out by adding the initial size of the pot (\$100), plus the size of the opponent's bet (\$100), plus the second player's call of the first bet (\$100).

This equals R\$300, which when added to the R\$100 call makes the maximum bet R\$400.

Betting is easier when you play online

While this can be confusing

until you are used to playing the game regularly, betting in pot limit Omaha poker is a lot easier if you play online.

When playing Omaha games online you can simply click the "pot" button and the software figures out the correct amount for you.

Need help? Ask the Dealer to count the chips for you

In a live pot limit Omaha game, if you announce "pot" before betting the size of the pot, the dealer will assist with the calculations.

Basic Pot-Limit Omaha

Strategy

Pot-limit Omaha poker is a complex game, which makes it difficult to come up with the perfect strategy for playing it.

There are a number of pointers that you can remember that can form the basis for a solid pot limit Omaha strategy:

Be patient with

your starting hand selection. Don't fall into the trap of thinking that any four cards are worth playing.

Don't fall into the trap of thinking that four cards are worth playing. A bare pair of aces isn't as good as in hold'em. Two aces can help form a strong preflop hand in PLO poker, but unless they improve on the flop you're unlikely to win the pot, especially in a multi-way contested pot.

Two aces can help form a

strong preflop hand in PLO poker, but unless they improve on the flop you're unlikely to win the pot, especially in a multi-way contested pot. There is less bluffing in PLO poker. While bluffing does occur, it's less prevalent in most players' PLO strategy than happens in hold'em; a show of strength in PLO is likely to be a strong hand.

While

bluffing does occur, it's less prevalent in most players' PLO strategy than happens in hold'em; a show of strength in PLO is likely to be a strong hand. Draw to the nuts. Although there are times when you can play a weaker draw aggressively, drawing to the nuts is the best idea.

Although there are times when you can play a weaker draw aggressively, drawing to the nuts is the best idea. Stop thinking like a hold'em poker player. Many Omaha poker players come from a no-limit hold'em background and play the game as such. They'll overvalue one-pair and two-pair hands, as well as open-ended straight draws (with eight outs). The latter is particularly problematic since in PLO poker it is possible to have "wrap" draws with up to 20 outs with the perfect hole card and community card combination!

Quick Strategy Tips to Be a Good Omaha Player

While Omaha might not

be as "straightforward" as Texas hold'em, these are some simple strategy tips that will help you get better results at the table — faster.

Go through this list of essential

Omaha poker tips, memorise them, and you'll know what to do to become a better player right.

Know what hands to play / fold. The nature of PLO requires you to be smart and

take a holistic approach to the cards that compose your starting hand.

Avoid the dangles, for example.

Whenever you decide to play a hand with a 'dangler' (a card that doesn't connect to any of the other cards in your four-card starting hand), you force yourself to play with three cards.

Why is this bad, you ask?

You might think this isn't too bad, especially if the other three cards that compose your hand seem promising.

Think about your opponents, for a moment.

If they go for a 'more conservative' pot limit Omaha poker strategy, they stay in the hand only if they can still play with all four cards, not just three.

By entering the hand with three cards, you are giving others an advantage they shouldn't have.

READ ALSO: You Play Too Loose in These 3 Preflop PLO Situations

Don't play too many hands. Note: this is not only the most important Omaha poker tip you can ever learn — it is a lesson that you should keep for all the poker games you'll ever play in your life.

Once you realize that Omaha poker games have good hands (a few) and bad hands (a lot more), you need to accept the consequences of that.

Select the hands you play and go only for the premium hands.

Omaha, like hold'em, is a game where you need to know when it's time to play and when it's best to fold your cards.

Be patient. Wait until your starting hand fits the range you should play, use the information you have to read your opponents and decide whether you should continue or not.

Know how to read the board and assess the other players' hand strength. Unless you are so good at detecting poker tells that the police use you as a real-life lie detector...be careful.

Omaha poker can become a very expensive game and one where the players don't bluff as much as in hold'em.

If a large bet comes

on the board, you better save your hero call for another poker game and fold. Most Omaha players use big bets to protect their hand. Calling their alleged bluffs can be very, very costly.

Understand How Odds and Outs Work. The concepts of odds, outs, and equity are important in all poker games, including pot-limit Omaha.

If you struggle to

do the math and understand how everything works, you better rely on the usual beginner's formula.

Start with a free odds calculator and continue using the tool until you learn how to do the calculations in your head.

Three Things NOT to Do in Pot Limit Omaha Poker

While in Sochi, Russia, for an 888poker Live event, PokerNews' own Tiffany Michelle approached 888poker ambassador Vivian Saliba to talk about Pot-Limit Omaha.

With more than R\$100,000 in PLO tournament winnings and an 11th-place finish in a

PLO event at the World Series of Poker, Saliba is known (and respected) to be a good Omaha poker player — perhaps even the best one in the 888poker team.

In her

conversation with Michelle, Saliba touched on the three most common mistakes she sees poker players make at the table when they play Omaha poker.

Don't Freak Out When Short

Stacked

"When you have seven or 10 big blinds (BB) you are not that short. You still have a lot of room to pick your spot and to pick your right hand," Saliba explains.

Confirming one of the Omaha tips we shared earlier, patience is the key. "You need to be very patient. I see too many people just going crazy [because] they think they are super-short."

"Poker is about survival," Saliba continues. "Tournaments are about survival. PLO is like that, too — just perhaps at another level. You need to learn to manage risks all the time.."

Don't Play a Lot of Hands

If you thought our list

of Omaha strategy tips was the only one mentioning the sheer volume of hands beginners play — think again.

"You have four cards," Saliba explains. "I know they look pretty — but this is the same for your opponent."

If you plan on staying in the hand and invest

your stack, "you really need to have strong high cards, high pairs, drawing for the nuts."

"You shouldn't be playing multi-way pots with weak draws or [small] pairs. You have to select the hands you play."

Don't Assume It's Just Like No Limit Hold'Em

It's

no secret that the majority of players that get into Pot Limit Omaha poker come from Texas hold'em.

According to Saliba, many of them make one common mistake: "they think Omaha poker is simply hold'em with four cards.

"There are a lot of differences between

the two games in terms of hands, of strength, theory, approaches, and more."

"There are

so many things that before you start playing PLO you should stop and study the game.

Omaha is not as simple as people think."

Best Starting Hands in Pot-Limit Omaha

Poker

Like other variants of poker, pot limit Omaha success begins with solid starting hand selection.

The very best Omaha poker players in the world play a wide range of poker hands, but those new to the game should stick to hands that are stronger and therefore easier to play.

The best PLO poker starting hands are those that have a big pair in them and some connectedness that allows them to improve post-flop.

Ideally,

your hands will be what is known as "double-suited," meaning you have the chance to flop two different flush draws.

E.g., AA76 is a nice double-suited starting hand with a big pair.

Computer simulations show that AxAxKxKx double-suited is the best

pot-limit Omaha starting hand.

Flopping a set with this hand means you'll always have top set, while any flush draw will be to the nuts.

Other strong hands containing a pair

of aces include AxAxJx10x and AxAxQxQx, while double-suited run-down holdings such as J1098 are also very playable.

Starting Hands in Pot-Limit Omaha

Final Considerations

As you have probably gathered,

pot-limit Omaha poker is an exciting game that creates big pots, and sees players make big hands regularly.

As great as this is, the big thing you need to consider is playing

Omaha poker requires a larger bankroll than hold'em variants mostly because of the closeness in the strength of hands both preflop and postflop.

It's common to not have

more than 60% equity on the flop against a single opponent, which can and does lead to some crazy swings!

When you run good at pot limit Omaha, you usually run very good, but

the flipside is also true. Remember it when you play!

Lentilas com molasses de granada e um delicioso tahini de limão

Essas lentilas doce-e-azedas são iguais à delícia, e você definitivamente deve fazê-las, mas o verdadeiro destaque aqui é o tahini de limão batido, mostrado para mim pela chef vegetal Kali

Jago – agora é meu condimento favorito. Em resumo, o tahini pode se transformar baccarat cassino uma coisa cremosa e deliciosa, que, como maionese, não é sólido ou líquido, e é maravilhoso regar, independentemente. Diferentemente da maionese, no entanto, é fácil de fazer: você apenas precisa emulsioná-lo com água e óleo pressionando o botão "ligar" baccarat cassino licador de alimentos.

Ingredientes

- Azeite extra-virgem de oliva
- 2 cebolas marrons
- 4 dentes de alho
- Sal marinho grosso
- 2 troncos de talos de salsa
- ¼ de colmo de canela baccarat cassino pó
- 2 colheres de chá de cominho baccarat cassino pó
- ½ colher de chá de cardamomo baccarat cassino pó
- 340g de lentilhas marrons
- 3 colheres de sopa de molasses de romã
- 1 colher de chá de agulha picante alemã
- 30g de salsa plana
- 120g de tahini
- 1 ½ colheres de sopa de suco de limão

Instruções

1. Coloque seis colheres de sopa de azeite baccarat cassino uma grande panelinha baccarat cassino uma fonte média e, quando quente, adicione as cebolas, os alhos inteiros e uma colher de chá de sal. Misture para combinar, baccarat cassino seguida, cozinhe, mexendo ocasionalmente, por 25 minutos, até ficar dourado, reduzido e marrom. Transfira metade da mistura de cebola para um pequeno tigela, e deixe o restante na frigideira com o óleo.
2. Enquanto as cebolas estão cozinhando, comece a preparar as lentilhas. Coloque duas colheres de sopa de azeite baccarat cassino uma frigideira larga ou baccarat cassino uma frigideira para assadeira pela qual você tem um tampo, e coloque-o baccarat cassino uma fonte média. Quando o óleo estiver quente, adicione a salsa, cozinhe, mexendo, por cinco minutos, baccarat cassino seguida, misture as especiarias.
3. Adicione as lentilhas, 1 ¾ colheres de chá de sal e um litro de água, coloque o tampo e cozinhe por 30 minutos, até as lentilhas cozinharem, baccarat cassino seguida, tempere com molasses de romã, pimenta alemã, salsa e todo o mistura de cebola e óleo ainda deixado na outra frigideira (salve a cebola no tigela para terminar o prato).

Tahini de limão batido

Para fazer o tahini de limão batido, use um pequeno liquidificador ou um liquidificador de pau para bater o tahini, o suco de limão, uma colher de sopa de óleo, ¼ de colher de chá de sal e 100 ml de água até engrossado e cremoso.
