How to Play Video

What is 2-7 Triple Draw Lowball?

2-7 Triple Draw Lowball is a 5 hole

card draw poker variant with a lowball hand ranking. In 2-7 Triple Draw Lowball

(sometimes known as Kansas City Lowball), the goal is to make the worst conventional

poker hands. That's right - you're looking for the lowest five-card hand possible, not the highest.

The lowest hand (the best) possible in 2-7 Triple Lowball is:

7-5-4-3-2

(Unsuited)

2-7 Triple Draw Poker Rules

2-7 Triple Draw poker is usually played as a fixed-limit game (just like Limit Hold'em) so there's a small and a big bet. These are twice the blinds and denote the name of the game.

That means in a 50c/\$1 game the blinds are 25c/50c. Bets are then 50c in the first two betting rounds and \$1 in the second two betting rounds.

How to Bet in 2-7 Lowball Poker

2-7 Lowball is a "blind game," meaning the player to the left of the dealer puts in the small blind and the player to the left of the small blind puts in the big blind.

Starting with the player

on the left of the dealer and moving clockwise around the table, every player is dealt five cards facedown, one card at a time. Once all players have five cards, the first betting round starts with the player to the left of the big blind.

Once the betting

round has completed, the players enter the first drawing round. Starting with the player on the dealer's left, the player announces how many cards he would like to throw away from his hand and receives new ones in return.

The dealer deals all of the cards

to that player at once before moving on to the next player. A player can choose to keep his hand intact and not throw away any cards at all. This is known as standing pat or rapping pat.

If a player chooses to discard all five cards, the dealer will only deal

them four new cards at once. The fifth card will be dealt after all other players have received their cards

If the player discarding all five cards is last to be dealt cards,

the dealer will deal them four cards at once, then "burn" one card (discarding it face down on the table) before dealing the player his fifth and final card.

Once all players

have received their new cards the second betting round begins, starting with the player to the left of the dealer. This pattern repeats until either:

Only one player is left,

the rest having folded

The players have completed the betting round after the third drawing round

2-7 Lowball Poker Rules for Showdown

Once all betting is complete the

best 2-7 Lowball hand wins the pot

Hands are counted from the highest card in the hand

down

The best possible 2-7 Lowball hand is 7-5-4-3-2 (with all five cards NOT of the same suit)

(with all five cards of the same suit) Straights, flushes and pairs DO count against you

Having a straight does not kill your hand but lessens the value. For

example any hand without a flush, straight or pair will beat any hand with a pair, regardless of how low the cards are

The ace is used only as a high card

Because the ace

is a high card 5-4-3-2-A is not considered to be a straight but an A-5 high

5-4-3-2-A

is not considered to be a straight but an A-5 high Any two players holding the same hand split the pot

Once the player with the winning hand has received the pot the

player who was to the left of the dealer becomes the new dealer for the next hand

## 2-7 Poker Rules and Hand Rankings

The two most common variations of lowball poker are

Triple Draw and Razz. Depending on the variation, in their specific poker hand rankings the lowest hand can be ranked in a few different ways.

Aces can be regarded as either

high or low and straights and flushes can either count or not. (Pairs always count though.)

Ace-to-5 Low: The best hand possible is A-2-3-4-5 which is called a "wheel."

Aces are low and straights and flushes do not count. Games that use this ranking include California Lowball (also called Ace-Five Lowball) and Razz, which is the low version of Seven-Card Stud. This is also used in Omaha Hi-Lo.

Ace-to-6 Low: The best

possible hand is A-2-3-4-6. Aces are low and straights and flushes count. It is also called "6-4 Low." This is used in London Lowball, which is a Seven-Card Stud variation.

2-to-7 Low: As explained above the best hand possible on 2-7 is 2-3-4-5-7.

Aces are high and straights and flushes count. It is also called "7-5 low."

2-to-6 Low:

The best possible hand is 2-3-4-5-6. Aces are high and straights and flushes don't count. This form is very rarely used.

## 2-7 Triple Draw Lowball Strategy

As in all other

poker games two factors are essential for your 2-7 Triple Draw strategy:

Let's start

out with position. Apart from the information we get from our opponent betting or not, we get added information from the number of cards our opponent draws. This is only the case in draw poker.

This second part of information can be extremely valuable. If your

opponent stops drawing (he "stands pat"), it usually means he has a made hand – unless, of course, he's bluffing.

If, on the other hand, he draws three cards he is far away from a made hand.

To find his proper hand range is a lot more difficult. But your first basic rule should be:

Never draw more than three cards - two, if possible.

These are

the top six starting hands in 2-7 Triple Draw:

1) 2-3-4-x-x

2) 2-3-7-x-x

3)

2-3-5-x-x

4) 2-4-5-x-x

5) 2-4-7-x-x

6) 2-5-7-x-x

Which brings us to the second basic rule:

Good starting hands have a "2" in them

Hands with a "3" as the lowest card – like

3-4-7-x-x or 3-5-8-x-x – are playable to steal or defend the blinds.

Of course, the

number of players in the hand is also significant.

Here's your third rule:

Be careful

with hands that contain a "6"

The problem with these hands is you can easily get in

trouble by building a straight. Look at a hand like 3-4-5-6-x.

At first glance this

looks like a pretty good hand but it's actually terrible as both the deuce – the lowest card in a game of triple draw, as the aces are high – and the seven make a straight, which would count against you.

Every straight with low cards must contain a six, which is why you should try to avoid this card.

Golden 2-7 Triple-Draw Strategy Rules

Apply

The last betting round in 2-7 Triple Draw differs significantly from NLHE and PLO, mainly due to the structure of limit poker.

However, the 2-7 Triple Draw Golden

Rule:

You should only bet if your opponent might be willing to call with a worse hand

is valid here, too. Bluffs are rare, but not impossible.

No Simple Recipe for 2-7

Triple Draw Lowball

2-7 Triple Draw is a fascinating game characterized by a lot of

swings. Be aware of this before you begin. There is no simple recipe for 2-7 Triple Draw as there is none for any poker game.

As a rule of thumb, we advise you to start as

a solid player. Play tight-aggressive and select your hands carefully. As a beginner, get some experience on the lowest levels before you start moving up!

How to Play Limit

2-7 Triple Draw Poker

Limit 2-7 Triple Draw poker is a lot different from other poker variants in several respects. Two of them are:

Let's illustrate what this means in practice:

In a 50c/\$1 game Player A raises to R\$1, the small blind folds and the big blind calls. There's now R\$2.25 in the pot.

Players draw, the big blind checks and

Player A bets. Now the big blind raises to R\$1 and Player A calls. There's now R\$4.25 in the pot. Players draw again and now the big blind bets out.

Even before the third and

last draw Player A gets 5.25:1 pot odds – unthinkable in a No-Limit game. What this means is that Player A can assess the strength of his hand pretty well and thus decide if a call is correct.

Also the big blind has a lot less fold equity than in a No-Limit

game; in other words it's much harder to bluff. In practice, you should always bet with

your good hands. Any player drawing to beat you must pay the maximum. Different poker

variants like Limit 2-7 Triple Draw and 2-7 Single Draw, and countless others, are fun to learn and easy to master with right instructions. On our How to Play Poker page you find information and game guides for all poker games and more.

2-7 Poker Hands at  
Showdown

The special appeal of 2-7 Triple Draw is contained in the relative value of different hands. It happens very often that two or more players draw three times so that in the end no player quite knows where he or she stands.

Of course if you hold the nuts - 7-5-4-3-2 offsuit - you do. But then that doesn't happen very often.

As a general statement you can go with the rule:

An 8-high or 9-high hand heads-up is in most cases good enough for a showdown.

Of course, a hand like 9-5-4-3-2 is a lot more valuable than a hand like 9-8-7-5-3. On the hand-ranking list for 2-7 Triple Draw, the first nine-high hand is number 19, while the second one is only in 48th position!

Did

we mention Isildur1 plays 2-7?

Bluff catchers are ten- or jack-high hands – in case your opponent has a hand like 8-7-4-2 and is drawing for a six, five, or three, he will often end up with a high-card hand (queen, king, or ace high) or even a pair, which are both very weak hands.

On the river – or after the third draw, in this case - you are always faced with the question of betting one more time or not.

If you have a monster –

7-5-4-3-2, 7-6-4-3-2, 7-6-5-3-2, 7-6-5-4-2 – you should always bet. If not, this well-known rule of thumb applies: Bet if a worse hand than yours can call you.

If this

is not the case, you should switch to check-call mode and hope that your opponent is going to bluff.

## **Um amante apaixonado por pizza: história de uma paixão que dura há seis anos**

Não há nada no mundo que goste mais do que pizza. Eu cresci nos primeiros anos 90 blackjack na blaze Connecticut, onde meu pai possuía uma pizzaria chamada Kenny V's até eu ter três anos. Ainda tenho o sinal antigo de seu restaurante blackjack na blaze meu garagem.

Há seis anos, eu tenho comido pizza todos os dias. Às vezes, pode ser apenas uma fatia, mas na maioria dos dias, eu passo por uma inteira. Minha favorita é uma pizza americana clássica de borda funda de pepperoni. Eu adoro tomate e queijo blackjack na blaze uma crosta grossa, então uma margherita simples nunca vai desagradar.

Anteriormente, eu trabalhava para uma empresa que cuida de sistemas de aquecimento e resfriamento. Meu colega e eu estávamos na estrada todo dia, e a coisa mais rápida para mim pegar para comer era uma pizza. Um dia, ele disse: "Eu acho que você não poderia comer todos os dias por uma semana." Eu aceitei o desafio facilmente. Ele então estendeu a aposta para um mês. No final, me senti que poderia ir por mais tempo.

Criei uma conta de mídia social para documentar meu progresso, e seis anos depois, ainda estou forte. Eu gosto de comparar versões do mesmo sabor feitas por diferentes chefs e experimentar novos sabores. Creme que as combinações de manteiga de amendoim e bacon, e beefaroni e caviar são algumas das combinações mais selvagens que tive, embora elas me fizessem perceber que gosto de manter minha pizza simples. Estou confiante blackjack na blaze afirmar que a pimenta definitivamente não pertence à pizza.

Eu continuarei meu hábito durante as férias, mesmo quando as empresas estiverem fechadas. No Dia de Ação de Graças, eu dirijo para o cassino para pegar uma fatia, e compro pizzas no Ntalho

de Natal o suficiente para ter sobras para o Dia de Natal.

Em nosso dia de casamento, a minha esposa e eu pedimos pizzas de queijo para os convidados ao final da noite.

Minha esposa é muito solidária e frequentemente traz fatias blackjack na blaze casa. O ano passado, passei 16 dias na Itália explorando Roma, Nápoles e a costa Amalfitana com ela e nossa filha. Eu comi pizza lá também, claro. Minha família às vezes fica cansada de pizza. Normalmente tento pegar minha correção durante o intervalo para almoço, de modo a ter a mesma refeição que eles à noite. Mas sempre tenho espaço para sobremesas de fatias sobrantes depois da jantar.
