First off, the Golden Tree Wild symbol acts as a substitute for all regular symbols in the game and thus, it can help you form winning combinations. Then, we go to Copy Reels, which is triggered when a full stack of the game's most rewarding symbols lands on the leftmost reel. In this scenario, the whole stack is copied and pasted to one or more additional reels.

The third and main feature of Gold Party by Pragmatic Play is the Money Respin feature, which is triggered when you land at least 6 Money symbols. In this scenario, you will be rewarded with eight respins, which are used on a separate layout containing four grids with five reels and three rows.

Regular symbols are taken out of the equation, and the only featured symbols are Money symbols, Extra Spins symbols and Multipliers. Whenever they land, they are locked for the duration of the round. There are four types of matrices, which are actually the jackpot payouts in this game.

If any matrices are filled with either a Mini, Minor, Major, or Grand jackpot, players will be rewarded with a reward worth 20x the stake, 50x the stake, 200x the stake, or 5,000x the stake. Secure withdrawals are completed very fast, although there aren't as many banking methods to choose from here as we would have liked. Bank transfers and payments to Visa or MasterCard are completed in 1-5 days, while withdrawals using NETELLER or Skrill are instant once the casino pending period is over.
