### Muitos filmes familiares são feitos com pouca familiaridade com crianças de verdade

Por uma das razões mais comuns de filmes feitos para a família é que muitos deles parecem ser feitos com pouca familiaridade com as crianças. Embora atores e cineastas frequentemente falem sobre fazer filmes familiares ocasionalmente para agradar aos filhos, muitos desses filmes parecem não ter uma compreensão clara da mente das crianças.

#### Imaginário infantil mal compreendido

Um exemplo recente é o filme *If*, que interpretou a ideia de amigos imaginários como algo comum bwin backup bet crianças do ensino fundamental, bwin backup bet vez de crianças mais novas. Agora, temos *Harold and the Purple Crayon*, uma adaptação do livro ilustrado clássico de Crockett Johnson. No filme, o personagem principal, Melvin (Benjamin Bottani), parece ser uma criança próxima da pré-adolescência, mas ainda acredita bwin backup bet um cão imaginário que, supostamente, o acompanha bwin backup bet todos os lugares. É suposto ser uma reação à morte do pai de Mel, mas na verdade, é um sinal de que os roteiristas têm uma compreensão distorcida e simplista sobre como as crianças enfrentam a dor.

#### Indulgência bwin backup bet delírios

A mãe de Mel, Terri (Zooey Deschanel), encoraja-o gentilmente a fazer amigos reais. No entanto, Harold (Zachary Levi), um refugiado do mundo animado bidimensional baseado nas ilustrações do livro, incentiva Mel a acreditar bwin backup bet seu cão imaginário. Embora possamos supor que Harold esteja se conectando com Mel de uma maneira que outros adultos não sabem fazer, a atuação de Levi é tão exagerada e desajeitada que nunca podemos descartar a possibilidade

de Harold ser um entusiasta perigoso das ilusões.

## Uma história sem sentido

Aqueles familiarizados com o livro (e seus sequências) podem estar se perguntando: Harold não é um bebê? A resposta é sim, mas no filme, Harold cresce e se torna um desenho animado de um homem adulto, brincando com seus companheiros animais imaginários, Moose (Lil Rel Howery) e Porcupine (Tanya Reynolds), e acompanhado por uma voz narradora invisível. Quando a voz narradora desaparece, Harold, Moose e Porcupine decidem encontrá-lo no mundo real. Neste processo, os animais se tornam humanos, mas o crayon mágico ainda pode criar tudo o que o artista puder imaginar, causando confusão nas vidas de Mel e Terri. O filme tenta ensinar uma lição, mas ela é arbitrária e sem sentido: "seja você mesmo" ou "a imaginação é boa". Certamente, é uma lição útil para uma criança triste e sem amigos: ser você mesmo.

## Um filme sem graça

Quase nada *bwin backup bet Harold and the Purple Crayon* funciona. Os personagens não fazem sentido *bwin backup bet* sonhos; Reynolds é o único ator que dá uma boa atuação, enquanto Howery fala sobre ser um alce, mas se comporta mais como um ser humano, exceto nas cenas *bwin backup bet* que brevemente se transforma *bwin backup bet* um alce CGI para mais confusão. A história é baseada *bwin backup bet* grande parte *bwin backup bet* personagens incomodando trabalhadores de serviço, e é impulsionada por parcerias comerciais oportunistas; grande parte do filme é ambientado no local de trabalho de Terri, a cadeia de descontos americana Ollie's, e embora ela não goste do local, os outros personagens frequentemente entusiasma-se com o slogan "este lugar tem tudo!". Os efeitos visuais desbotados envolvem principalmente os personagens embarcando *bwin backup bet* diferentes meios de transporte criados com crayon e gritando sobre o quanto é incrível ou assustador. Em um gesto tocante de desprezo pela profissão que manteve o trabalho de Crockett vivo por anos, o vilão é uma bibliotecária egoísta e vaidosa (Jemaine Clement).

## Uma performance exaustiva

O diretor, Carlos Saldanha, vem do mundo da animação, onde trabalhou por anos no extinto estúdio Blue Sky nos filmes populares da era do gelo, e a fluidez animada que trouxe para esses projetos desaparece aqui *bwin backup bet* uma névoa roxa. O mais confuso de todos é Levi, que levou o incongruente de *bwin backup bet* atuação nos filmes do Capitão Marvel (onde interpreta um adolescente desanimado *bwin backup bet* um corpo adulto, mas às vezes se comporta como um adolescente falador) e o tornou o motor desse filme. Levi faz faces *bwin backup bet* paroxismos exaustivos de alegria, altera o nível de sofisticação de Harold de cena para cena e passivo-agressivamente repreende Terri por trazer preocupações do mundo real para *bwin backup bet* casa de mãe solteira. Pode ser a performance mais exaustiva do ano.

## Um filme sem graça

No geral, Levi faz um caso *airtight* contra Harold ser envelhecido *bwin backup bet* um adulto criança. Qual é a finalidade disso, além de reciclar algum *shtick* que os cineastas devem ter percebido, tarde demais, que não era tão amado? Parece provável que a combinação de um homem-criança e Deschanel esteja destinada a evocar a magia atemporal da comédia natalina de Ferrell, *Elf*, com a distinção crucial de que Ferrell é engraçado. *Harold and the Purple Crayon* não é engraçado, não é perspicaz sobre as crianças, e custa muito mais tempo e dinheiro ver do que simplesmente ler os livros que ele tenta transformar *bwin backup bet* uma metatexto. Ele faz

da imaginação uma prova de resistência cansativa.
