Overview of the Best 22Bet Games

While researching for this 22Bet review, we were almost

overwhelmed by all of the titles it has to offer. In all, there are 6,113 22Bet games to choose from, produced by some of the leading gambling software development companies in the world.

We like that the 22Bet games portfolio has over 100 different variations of blackjack. If baccarat is more your thing, have a look at how we rate the best baccarat casinos in the industry.

Since there are so many titles offered at the 22Bet

online casino, you can search for games with the lowest house edges and best payout structures to give yourself the best chance at winning. Here is a list of some of the best 22Bet games:

Extra Chilli – Most Famous Slot

- 10p Roulette - Most Popular

Roulette Game

- Spanish Blackjack Gold Series Best Blackjack Game
- Mini Baccarat -

Most Popular Table Game

- Speed Baccarat - Top Live Dealer Game

Much of the 22Bet

software is provided by Microgaming. It develops many of the slots and table games that you will find at 22Bet. The operator also features titles from numerous other developers that are well-known in the industry.

If you would like to see more

information about the providers and the titles they make, see our dedicated article about the best casino game developers.

Live Dealer Choices

To complement its already

huge portfolio, 22Bet also offers many games that you can play live against a dealer.

You can play all the casino classics like blackjack, baccarat and roulette, as well as the popular poker variants.

The 22Bet software for live gaming on mobile devices is

produced by n2-live. There are various other providers as well for desktop, like XPG, SuperSpade Games and Evolution Gaming to name a few. This is unique in the industry as many casinos feature only one or two live software providers.

If you are interested in

seeing other casinos with live table game options, we've made a list of the best live casino sites.

Mobile and Tablet Options

The 22Bet online casino has a mobile app that

is available on both iOS and Android devices. You can download the app by visiting the 22Bet website on your mobile device and selecting which operating system you have. You can play all the 22Bet games via your mobile browser as well.

The mobile app

features some extra functionality like reduced loading times. We like how you get access to over 1,000 22Bet games and the sportsbook on your phone or tablet. If you want to see more options, we've put together a list of the top mobile casinos in Kenya.

Table Stakes Available

Now that you know which games are available, you're

probably wondering how much you can wager. While the welcome bonus is detailed in Rupees, not all of the site or games are available in this currency. Some conversions may be required when you evaluate 22Bet payout structures and staking options.

For the

purpose of this 22Bet review, we've provided approximate conversions for you.

We were a

bit disappointed that a comprehensive casino like 22Bet would have such a small spread of stakes. The highest limit game we could find was in the live blackjack section.

The

roulette limits were especially disappointing, as the maximum bet we were able to find was well below the industry average. If you're a high-roller, check out our review of Casino.

22Bet Payouts and Return to Player Rates

Many players mistakenly believe that

the return to player rate (RTP) of a game indicates whether or not the game has a good payout. What it really describes is what returns to the player base can be expected over an extended period of play and does not relate to session by session results. What

RTP is good for is comparing two versions of the same game. For instance, the Triple Bonus video poker game from Red Rake has an RTP almost 2% better than Microgaming's Double Joker Poker, meaning that the Triple Bonus variant is the one we'd be more inclined to play.

RTP (%)

You will take advantage of the

highest RTP when playing online blackjack in Kenya. We found the average RTP for the entire selection of 22Bet games to be a fairly average 96.25%. This is to be expected with such an expansive collection. Casinos with massive portfolios tend to have RTPs near the industry mean as all of the games average it out.

The 22Bet payout information

and RTP rates can all be checked before you play by clicking the information button when you load a particular title. The 22Bet software providers are all well-known and respected around the industry, so you can trust the numbers.

22Bet Website Layout and

User Experience

The 22Bet website is nothing to write home about. It's got a navigation bar at the top and a search function on the right, but we found it to be cluttered as the table games are included with all of the slot titles.

With over 6,000 22Bet games,

the search bar is the most efficient way to find what you like, however it's easy to let some game variants fall through the cracks. If you don't use the search bar, you'll need a good eye as the thumbnails are not organized.

One notable thing is that there is

no dedicated 22Bet software to download for your computer. You can play all of the games in your browser. You can even play up to four games at once, if you make use of the autoplay feature that many games have.

If you want a casino with a downloadable

client, we recommend having a read through our Betway casino review. To download the 22Bet software on your phone, simply visit the 22Bet website and click on the iOS or Android buttons.

For more information about online casino software developers, see our dedicated article.

22Bet Company Information

22Bet was established in 2024 and is owned

by Marikit Holdings Limited, a company based in Cyprus. 22Bet's European presence is owned and operated by TonyBet OÜ. TonyBet has a UK and Estonian licence, and 22Bet Kenya is operated by Pesa Bet, which has a licence from the BCLB (Betting Control and Licensing Board of Kenya).

When an operator owns other casinos, it shows that it knows

the industry and can be a good indicator of trust. This is a positive signal because many scam websites set up one domain and then disappear.

Notable Facts About the

Operator

22Bet has some measures so that you can limit yourself should you feel the need to. You are able to adjust your deposit limit and self-exclude for a length of time that you choose. The self-exclusion options are a week, a month, six months, a year and permanently.

We looked for sponsorships of responsible gambling programmes but were unable to find any indication that 22Bet donates to these causes. We did find some information about what the operator suggests you do if you feel like you have a problem, like setting deposit limits and contacting support.

Getting Help for Your Account

A good way to evaluate online casinos is to compare the

customer support methods that are available. During our 22Bet review, we evaluated the operator's support functions and found that email, the contact form and live chat are monitored 24/7 in both Hindi and English.

We recommend the live chat feature because a

22Bet support agent comes to your assistance right away. They can help you resolve any issues you may be having with your account such as deposit or withdrawal problems and can help you verify your identity.

Remaining Safe and Secure

22Bet security features

128-bit SSL encryption from the organization Let's Encrypt Authority. The encryption is

standard in the industry and is considered to be safe for many years to come.

Bonus

Points Received

The last thing we cover in our 22Bet review are some bonus points that make this operator unique. We like that the casino features Drops & Wins from Play, where the game randomly awards one person each day a sum of money while they're playing a selected slot machine.

You can see a list of more of the best sites with Pragmatic

Play games in our software provider reviews section.

It's

always a bit disappointing when a casino doesn't have a loyalty programme, especially when it's as large as 22Bet. A loyalty programme can be a good way to give a little back to your customers and improve the customer experience.

While there is no loyalty

programme, we did like that there is a large portfolio of jackpot slots available. Combined with the Drops & Wins collection, there is always a chance of a big win.

22Bet

Review Conclusion

To conclude our 22Bet review, we really don't know how to feel about

it. It seems like the operator is more than willing to help when it comes to customer support and account issues, but such limited information available at the company leads to questions about transparency.

That being said, what really stands out about the

22Bet online casino is its collection of games. An expansive slot and live game portfolio mean that you're never bored, and there is always something new and interesting to play.

One of the things

that 22Bet could improve upon is its level of transparency. When the ownership group is very private like Marikit Holdings, it becomes up to the players if they want to trust the operator or not.

It is worth noting however that the 22Bet games collection comes

from a number of trusted software companies which do not want to be associated with questionable operators. It also has a gaming licence from a recognised authority which you can use as another indicator of trust. If you're not convinced, try one of our other best casinos in Kenya.
