Poki Games for boys

Subway

Surfers

Subway Surfers is an endless runner game first made for mobile phone's portrait screen. You can choose from different characters but the default character is named Jake. You play as Jake and you have to evade a police officer and his dog. You also have to dodge trains, trams, and other obstacles. You also get to collect coins, power-ups, special gears, etc while you are running.

How to play

Press Arrow Up to

jump, Arrow down to duck down

Press the left and right arrow keys to move to that side.

Press the Space key to activate the hoverboard.

Run as much as you can and

collect as many coins and power-ups as you can.

Candy Crush Saga

Candy Crush Saga is a

game you or even your parents must have been addicted to at some point. It is a simple tile-matching puzzle game wherein you have to match the same coloured candies to crush them. The more you match, the more you crush, and the more levels you win.

This game is

present on Poki.co.in, a Poki alternative.

How to play

You have to hold the mouse or

trackpad cursor to choose a candy, then move it up/down/left/right to place it where you feel there is a match.

Sometimes, you have to try to zoom out and see the entire board to see if there's a chance of crushing multiple candies by matching a single group of candies. That gets you more points in one go.

Angry Birds

Angry Birds is a game that propelled to so much success at one point that it got a movie based on its characters. Here you get to play as different birds, but primarily a red angry bird. The birds are trying to protect the green-coloured pigs from eating up their eggs. So, the birds have to be slingshotted to a distance where the pigs are. You just have to ensure the slingshot is pulled and positioned in such a manner that the bird hits the pigs.

This game is present on Poki.co.in, a Poki alternative.

How to play

You press and hold the cursor of the mouse or touchpad to control the slingshot.

You pull it as much and in the direction that you feel would take the bird to the pigs. A dotted line shows the route the bird would take.

Super Mario and Sonic

Although we couldn't find the original Super Mario game on Poki, we managed to find a clone called Super Mario and Sonic on Poki.co.in. You can play as Super Mario or Sonic but both are centered around the Mario game's gameplay mechanics. You run, jump and hit, collecting coins, and evading all valleys until you reach the flagmast.

This game is present on Poki.co.in, a Poki alternative.

How to play

Press the Arrow up to jump.

Press the Arrow left and right to move in that direction

Don't haste and fall into the valley or hit the turtles.

Master Chess

Chess is a universal game and the reason I picked this one is for the game graphics. You can play player vs player or player vs the CPU. You get 10 seconds to make a move. That time element adds more seriousness to the game.

How to play

Click the chess piece you want to move.

Click where you want to move it. Of course, you have to stick to the chess rules. You can't move them wherever you want.

Moto X3M

How to play

Press Arrow up to accelerate, Arrow down to hit the brake.

Press the right arrow to slant forward and the left arrow to slant backwards.

Control the speed properly to do the stunts and not fall and crash.

and forth and hit it over the net. The game continues until one of the players fails to return the ball or hits it out of bounds.

How to play

Press X to hit or Z to smash the ball.

Move using W to jump, A to move backwards and D to move forward.

game with a cyberpunk theme and physics-defying stunts. Accelerate but try not to fall off the track and also avoid hitting the obstacles on the way. To speed up, collect the green-coloured power-ups on the way.

How to play

Press A/D or Arrow Left/Right to move in that respective direction.

Avoid the obstacles.

Trivia

Test your knowledge in this game. There are 3 modes:

Classic mode wherein you spin the wheel and wherever the dial lands, that will be the topic you play. So, it would be just random.

Challenge mode

lets you choose the topic and you have to answer all questions without fail.

In the

Party mode, you can compete with others.

How to play

Use the trackpad or mouse to spin the wheel or choose the topic and select the answer.

Kamala Harris recauda más de 12 millones de dólares en una recaudación de fondos en San Francisco

Alrededor de 700 simpatizantes demócratas adinerados se reunieron en el Hotel Fairmont de San Francisco el domingo para ver a Kamala Harris en su primera visita a la ciudad desde que lanzó su campaña por la presidencia. Entre la multitud en el evento de recaudación de fondos, donde los boletos más baratos costaban 3.300 dólares y llegaban hasta los 500.000 dólares, había una mezcla de millonarios de la tecnología, ejecutivos y capitalistas de riesgo de Silicon Valley que rápidamente han abrazado a la vicepresidenta en su candidatura a la Casa Blanca. El evento, que recaudó más de 12 millones de dólares, fue el último de una serie de actos de alcance de la campaña de Harris hacia los demócratas de la tecnología y una extensión de una relación con los élites de Silicon Valley que se remonta a más de una década.

Harris tiene vínculos estrechos con algunos de los jugadores más influyentes e importantes donantes de la industria tecnológica, en parte debido a su tiempo como fiscal general de California y más tarde, senadora. Si bien su campaña aún no ha publicado posiciones políticas detalladas sobre cuestiones como la regulación tecnológica, el historial de Harris ha llevado a los ejecutivos de la tecnología a especular sobre si podría adoptar un enfoque más amigable con la industria que Joe Biden.

Entre los demócratas de la industria tecnológica que han promovido o contribuido a la campaña de Harris se encuentran la ex directora de operaciones de Facebook Sheryl Sandberg; el cofundador de LinkedIn Reid Hoffman, quien asistió a la recaudación de fondos en San Francisco, así como la filántropa Melinda French Gates, el presidente de IAC Barry Diller y el capitalista de riesgo de Silicon Valley Ron Conway. Laurene Powell Jobs, filántropa multimillonaria y ex esposa de Steve Jobs de Apple, es una amiga de larga data y en 2013 organizó una recaudación de fondos en su casa para Harris. El presidente de Netflix Reed Hastings, quien públicamente instó al presidente a abandonar después de su desastroso debate, donó 7 millones de dólares a un Super PAC pro-Harris dentro de los días de su nominación.

Algunos de estos donantes han llegado a la campaña de Harris con sus propias políticas para promover, en particular las demandas de Hoffman y Diller de despedir a la presidenta de la Comisión Federal de Comercio (FTC) Lina Khan. La FTC bajo Khan ha adoptado un enfoque agresivo hacia la regulación de las empresas tecnológicas, persiguiendo casos contra Microsoft y Amazon, lo que ha disgustado a la industria. (Hoffman es miembro de la junta de Microsoft, que ha sido objeto de litigios antimonopolio de la FTC.)

Las demandas de Hoffman y Diller de destituir a Khan mientras realizan donaciones importantes a Harris dan la apariencia de donantes multimillonarios que intentan influir en la política para su propio beneficio, a pesar de las negaciones de Hoffman de que su contribución se realiza a cambio de influencia. Harris aún no ha comentado sobre Khan o las donaciones de sus críticos, mientras que su campaña organizó un evento en agosto con la participación de Hoffman después de sus ataques a la presidenta de la FTC.

Además de donantes importantes, Harris también ha recibido promesas públicas de apoyo de cientos de otros capitalistas de riesgo y trabajadores de la tecnología. Un sitio web "VCs For Kamala" presentó más de 800 firmas de una variedad de firmas, mientras que Bloomberg informó que una carta abierta Tech4Kamala recibió más de 1.200 firmas. Los dos grupos planean

organizar un evento más adelante este mes.

Mientras lucha contra Trump, Harris forja nuevos vínculos en Silicon Valley

A pesar de tener más partidarios vocales en la tecnología que Biden, la industria también ha experimentado un cambio hacia la derecha y el abrazo de creencias de extrema derecha que le da a Harris una serie de oponentes prominentes. Un almuerzo de recaudación de fondos en San Francisco para Donald Trump organizado el mes pasado por los capitalistas de riesgo David Sacks y Chamath Palihapitiya recaudó alrededor de 12 millones de dólares, mientras que los pesos pesados de Silicon Valley Marc Andreessen y Ben Horowitz anunciaron planes para realizar donaciones importantes al ex presidente.

JD Vance, compañero de fórmula de Trump, también llevó su campaña para senador de Ohio con la ayuda de aproximadamente 15 millones de dólares en contribuciones del multimillonario de la tecnología Peter Thiel, cuya firma de capital de riesgo empleó brevemente a Vance en 2024. Antes de convertirse en senador, Vance trabajó en Silicon Valley, donde se conectó a una red más amplia de conservadores adinerados en la tecnología.

Conexiones de California con la tecnología grande

Como fiscal general y luego senadora de California entre 2010 y 2024, Harris estuvo en el cargo durante un período crucial en el ascenso de las redes sociales más grandes de Silicon Valley, como Facebook. Su récord en legislación y litigio en torno a la tecnología ha oscilado a lo largo de los años, atrayendo elogios de algunos defensores de la regulación y la privacidad y, en ocasiones, críticas de que Harris no intentó frenar a las empresas a medida que acumulaban monopolios.

Harris disfrutó de una relación bastante cómoda con la industria como fiscal general, incluida la amistad con la entonces directora de operaciones de Facebook Sheryl Sandberg y la participación en la campaña de relaciones públicas para el libro de memorias de Sandberg Lean In. Sandberg dio la máxima contribución legal individual a su campaña para el Senado de 2024 y, según los correos electrónicos adquiridos por HuffPost, le envió un mensaje a Harris dos días después de esa elección que decía "FELICITACIONES!!!!!!!!!!!!!! NECESITAMOS SU AYUDA AHORA MÁS QUE NUNCA." Harris no respondió.

Durante el tiempo de Harris como fiscal general, Facebook adquirió tanto Instagram como WhatsApp en movimientos que ayudaron a expandir su dominio sobre las redes sociales. Los defensores de la competencia han criticado desde entonces a los reguladores federales y los funcionarios estatales por no investigar o bloquear más intensamente esas adquisiciones, con la FTC citando las adquisiciones como evidencia de prácticas anticompetitivas en su demanda antimonopolio contra Facebook. Harris ha tendido a mantenerse al margen de tomar una postura firme sobre las acciones antimonopolio y, en 2024, dio una respuesta vaga a una pregunta directa del New York Times sobre si las grandes empresas tecnológicas deberían ser divididas.
