In this rather unique combination of arcade and puzzle there are lots of little things you can do to outsmart 4 the competition and best every single one of your opponents. Here's a basic list of effective moves and helpful tips.

Since 4 the main mechanic is physics-based it is important to adjust your movement when trying to consume an object. Let's say 4 you want to eat some traffic lights: sometimes sliding under a vertical pole makes it fall in an unwanted direction 4 and ultimately drop flat on the floor horizontally, thus preventing you from being able to eat it. To prevent that 4 from happening you might want to slow down just a bit or move slightly backwards once the pole start moving 4 in an unwanted direction.

It is possible to get larger objects and buildings fall in even if your hole is not 4 big enough: simply place yourself under one of the edges of the object for it to start leaning into the 4 singularity and then move slowly towards its other end gradually consuming the rest.

It may be more important to swallow more 4 smaller stuff than fewer big structures. It is common to feel inclined to try and consume huge buildings once the 4 hole gets big enough, however it is a bit of a risk because it's possible to underestimate the size of 4 an object. If it won't fit inside, you will end up wasting your time. Instead spend some time adjusting to 4 your new size by going for smaller prey.

If you have been having trouble making it to the top of the 4 score board and besting other players, these tips will hopefully help you overcome some of the major difficulties. Ultimately, we 4 tend to produce best results after entering that focused meditative flow state of mind, but you need to become really 4 comfortable and familiar with the game in order to achieve it. Good luck becoming the best at Hole.io!
