Community card poker game

Omaha hold 'em A showdown in Omaha. Player on the left wins with Three of a kind. 5 Exactly two hole cards must be used. Alternative names Omaha Type Community card poker Players 2–10 Skills Probability, psychology Cards 5 52 Deck French Rank (highlow) A K Q J 10 9 8 7 6 5 4 3 2 Play Clockwise 5 Chance Medium to high

Omaha hold 'em (also known as Omaha holdem or simply Omaha) is a community card poker game 5 similar to Texas hold 'em, where each player is dealt four cards and must make their best hand using exactly 5 two of them, plus exactly three of the five community cards. The exact origin of the game is unknown, but 5 casino executive Robert Turner first brought Omaha into a casino setting when he introduced the game to Bill Boyd, who 5 offered it as a game at the Las Vegas Golden Nugget Casino (calling it "Nugget Hold'em").[1][2] Omaha uses a 52-card 5 French deck. Omaha hold 'em 8-or-better is the "O" game featured in H.O.R.S.E.

History [edit]

Omaha hold 'em derives its 5 name from two types of games.

"Hold'em" refers to a game using community cards that are shared by all players. This 5 is opposed to draw games, where each player's hand is composed only of concealed cards, and stud games, where each 5 player's unique hand contains a mix of cards visible to the other players and concealed hole cards.

In the original Omaha 5 poker game, players were only dealt two hole cards and had to use both to make a hand combined with 5 community cards.[3] This version of Omaha is defined in the glossary of Super/System (under Omaha) as being interchangeable with "Tight 5 hold 'em". Across all the variations of the game, the requirement of using exactly two hole cards is the only 5 consistent rule. The "Omaha" part of the name represents this aspect of the game.

Explanation [edit]

In North American casinos, 5 the term "Omaha" can refer to several poker games. The original game is also commonly known as "Omaha high". A 5 high-low split version called "Omaha Hi-Lo", or sometimes "Omaha eight-or-better" or "Omaha/8", is also played. In Europe, "Omaha" still typically 5 refers to the high version of the game, usually played pot-limit. Pot-limit Omaha is often abbreviated as "PLO." Pot-limit and 5 no-limit Omaha eight-or-better can be found in some

casinos and online, though no-limit is rarer.^[4]^[failed verification]

It is often said that 5 Omaha is a game of "the nuts", i.e. the best possible high or low hand, because it frequently takes "the 5 nuts" to win a showdown. It is also a game where between the cards in their hand and the community 5 cards a player may have drawing possibilities to multiple different types of holdings. For example, a player may have both 5 a draw to a flush and a full house using different combinations of cards. At times, even seasoned players may 5 need additional time to figure what draws are possible for their hand.

The basic differences between Omaha and Texas hold 'em 5 are these: first, each player is dealt four hole cards instead of two. The betting rounds and layout of community 5 cards are identical. At showdown, each player's hand is the best five-card hand made from exactly three of the five 5 cards on the board, plus exactly two of the player's own cards. Unlike Texas hold 'em, a player cannot play 5 four or five of the cards on the board with fewer than two of their own (nor can a player 5 play three or four of his or her hole cards).

A maximum of eleven players can be dealt a hand in 5 Omaha, regardless of whether or not burn cards are used, however Omaha is most commonly played six handed or nine 5 handed.

Some specific things to notice about Omaha hands are:

As in Texas hold 'em, three or more suited cards on the 5 board makes a flush possible, but unlike that game, a player always needs two of that suit in hand to 5 play a flush. For example, with a board of K 9 Q Q 5 , 5 a player with A 2 4 5 cannot play a flush using the ace as would 5 be possible in Texas hold 'em; the player must play two cards from in-hand and only three from the board 5 (so instead, this player's best hand is two pair: Q Q 5 5 A). 5 A player with 2 3 K J can play the spade flush.

, a player with play 5 a flush using the ace as would be possible in Texas hold 'em; the player must play two cards from 5 in-hand and only three from the board (so instead, this player's best hand is two pair:). A player with 5 play the spade flush. The same concept applies to straights. In Omaha, a player cannot use only one hole card 5 and four cards on the board to play a straight. For example, with a board of 5 6 5 7 8 A , a player with J J 4 9 or J 5 J 9 9 cannot play a straight. But a player with J J 4 5 3 can play a straight from 3 to 7;

, a player with or play a straight. But a 5 player with play a straight from 3 to 7; Two pair on the board does not make a full house 5 for anyone with a single matching card as it does in Texas hold 'em. For example, with a board of 5 J J 9 5 9 , a player with a hand of A 2 5 J K cannot play a full house; the player can only use the A-J to play J 5 J J A 9 , since they must play three of the board cards. A 5 player with J 2 9 10 can use their J-9 to play the full house J 5 J J 9 9 (or 9). Likewise, a player with 10 5 5 5 2 can use their 5-5 to play the full house J J 5 5 5 5 .

, a player with a hand of cannot play a full house; the player can only 5 use the to play , since they must play three of the board cards. A player with use their to 5 play the full house (or). Likewise, a player with use their to play the full house . Likewise, with 5 three of a kind on the board, a player must have a pair in hand to make a full house. 5 For example, with a board of J J A J K , a player with 5 A 2 3 K does not have a full house, the player only has three jacks 5 with an ace-kicking kicker, and will lose to a player with only a pair of deuces. This is probably the 5 most frequently misread hand in Omaha. (Naturally, a person with the fourth jack in hand can make four jacks because 5 any other card in hand can act as the fifth card, or "kicker".)

Omaha hi-low split-8 or better [edit]

A 5 showdown in Omaha hi-low split. Player on the left wins the low-hand half with the nut low A-2-3-4-5, player on 5 the right wins the high-hand half with a full house 5-5-5-J-J

The most valuable starting hand in Omaha hi-low split

In Omaha 5 hi-low split-8 or better (simply Omaha/8), each player makes a separate five-card high hand and five-card ace-to-five low hand (eight-high 5 or lower to qualify), and the pot is split between the high and low (which may be the same player). 5 To qualify for low, a player must be able to play an 8-7-6-5-4 or lower (this is why it is 5 called "eight or better"). A few casinos play with a 9-low qualifier instead, but this is rare. Each player can 5 play any two of their four hole cards to make their high hand, and any two of their four hole 5 cards to make their low hand. If there is no qualifying low hand, the high hand wins (scoops) the whole 5 pot. This game is usually

played in the fixed limit version, although pot limit Omaha/8 is becoming more popular. A few low-stakes online tournaments feature no limit Omaha/8.

The brief explanation above belies the complexity of the game, so a number of examples will be useful here to clarify it. The table below shows a five-card board of community cards at the end of play, and then lists for each player the initial private four-card hand dealt to him or her, and the best five-card high hand and low hand each player can play on showdown:

Board: 2 5 10 5 7 8 Player Hand High Low Alan A 4 5 K 5 5 5 A 10 8 7 5 4 2 A Bryan A 5 3 10 10 10 10 8 7 7 5 5 3 2 A Chris 7 9 J Q J 10 5 9 8 7 Cannot qualify Derek 4 6 K K 8 7 5 6 5 4 7 6 5 4 2 Eve A 5 3 6 9 10 9 8 7 6 7 5 5 3 2 A

In the deal above, Chris wins the high-hand half of the pot with their J-high 5 straight, and Bryan and Eve split the low half (getting a quarter of the pot each) with 7-5-3-2-A.

Some specific things to notice about Omaha/8 hands are:

In order for anyone to qualify low, there must be at least three cards of 5 differing ranks 8 or below on the board. For example, a board of K-8-J-7-5 makes low possible (the best low 5 hand would be A-2, followed by A-3, 2-3, etc.) A board of K-8-J-8-5, however, cannot make 5 any qualifying low (the best low hand possible would be J-8-5-2-A, which does not qualify). Statistically, around 60% of 5 the time a low hand is possible.

to qualify low, there must be at least three cards of differing ranks or 5 below on the board. For example, a board of makes low possible (the best low hand would be, followed 5 by, etc.) A board of, however, cannot make any qualifying low (the best low hand possible would 5 be, which does not qualify). Statistically, around 60% of the time a low hand is possible. Low hands often 5 tie, and high straights occasionally tie as well, as do, even more rarely, full houses. In theory, it is possible 5 to win as little as a 14th of a pot (though this is extraordinarily rare). Winning a quarter of the 5 pot is quite common, and is called "getting quartered." One dangerous aspect of playing for the low pot is the 5 concept of "counterfeiting". To illustrate, if a player has, for example, 2-3 and two other cards in their hand and 5 the flop is A-6-7, that player has flopped the "nut low". However, if either a 2 or a 3 5 hit the board on the turn or the river, the hand is "counterfeited" and the nut low hand is lost 5 (the player still has a much weaker low hand however, with 3-4, 3-5 and 4-5 making better lows). This 5 is why there is significant extra value in possessing the "protected" nut low. To illustrate this, if the player has 5 2-3-4 in their hand their low is protected, i.e. if a 2 or 3 hits the board they still have 5 the lowest possible hand. To lose the nut low in this case either a 2 and a 3, a 5 2 and a 4, or a 3 and a 4 would have to hit the board on the turn 5 and the river (giving the nut low to a player holding 4-5, 3-5 and 2-5, respectively), an unlikely 5 possibility. For similar reasons it is significantly better to possess the protected nut low draw over the low draw. For 5 example, this could be having A-2-3 with a flop of 7-8-9; any low card below 7 on the turn 5 or river gives the player the best low.

and two other cards in their hand and the flop is, that 5 player has flopped the "nut low". However, if either a or a hit the board on the turn or the 5 river, the hand is "counterfeited" and the nut low hand is lost (the player still has a much weaker low 5 hand however, with, and making better lows). This is why there is significant extra value in possessing the "protected" 5 nut low. To illustrate this, if the player has in their hand their low is protected, i.e. if a or 5 hits the board they still have the lowest possible hand. To lose the nut low in this case either a 5 and a, a and a, or a and a would have to hit the board on the turn 5 and the river (giving the nut low to a player holding, and, respectively), an unlikely possibility. For similar 5 reasons it is significantly better to possess the protected nut low draw over the low draw. For example, this could 5 be having with a flop of; any low card below on the turn or river gives the player the 5 best low. When four or five low cards appear on the board, it can become very difficult to read the 5 low hands properly. For example, with a board of 2 6 A 5 8, 5 the hand 2 4 5 K is playing a 6-5-4-2-A (either their 2-4 with the board's 5 A-5-6, or their 4-5 with the board's A-2-6 --either way makes the same hand). In this situation he is 5 often said to be playing their "live" 4, that is, their 4, plus some other low card that 5 matches the board but still makes a low because the one on the board isn't needed. A player with 3 5 5 10 J is playing a "live" 3, for a low of 6-5-3-2-A, which 5 makes a better low. However, a player with 3 7 Q Q can only play 7-5-3-2-A 5 low; even though he has a "live" 3,

he must play two low cards from their hand, and so 5 he must play their 7-3 , and cannot make a 6-high low hand.

, the hand is playing a (either 5 their with the board's , or their with the board's --either way makes the same hand). In this situation he 5 is often said to be playing their "live" , that is, their , plus some other low card that matches 5 the board but still makes a low because the one on the board isn't needed. A player with is playing 5 a "live" , for a low of , which makes a better low. However, a player with can only play 5 low; even though he has a "live" , he must play two low cards from their hand, and so he 5 must play their , and cannot make a -high low hand. Starting hands with three or four cards of one 5 rank are very bad. In fact, the worst possible hand in the game is 2 2 2 5 2 . Since the only possible combination of two cards from this hand is 2-2 , it is impossible 5 to make low. As no deuce remains to appear on the board, it will be impossible to make three deuces 5 or deuces full, and anyone with any matching card to the board will make a higher pair. Likewise, starting with 5 four cards of one suit makes it less likely that you will be able to make a flush. Starting with 5 four different suits yields no chance for a flush, and starting with four disconnected cards reduces straight possibilities. Computer analysis 5 of the best starting hands has proven that the best starting hand for Omaha is A-A-K-K (double suited). One favorite 5 starting hand for Omaha is A-A-J-10 (double suited), because of its wider range for making the nut straight (J-7, Q-8, 5 K-9, and A-10). For the Hi-Lo variation, the most valuable starting holding is A-A-2-3 (double suited). [5]

bad. In fact, the 5 worst possible hand in the game is . Since the only possible combination of two cards from this hand is 5 , it is impossible to make low. As no deuce remains to appear on the board, it will be impossible 5 to make three deuces or deuces full, and anyone with any matching card to the board will make a higher 5 pair. Likewise, starting with four cards of one suit makes it likely that you will be able to make a 5 flush. Starting with four different suits yields no chance for a flush, and starting with four disconnected cards reduces straight 5 possibilities. Computer analysis of the best starting hands has proven that the best starting hand for Omaha is (double suited). 5 One favorite starting hand for Omaha is (double suited), because of its wider range for making the nut straight (J-7, 5 Q-8, K-9, and A-10). For the Hi-Lo variation, the most valuable starting holding is (double suited). Hands to avoid tend 5 to contain mainly middle-ranked cards, which are of little use for any low splits and which tend to generate lower 5 pairs and sets, weaker flushes and lower straights and can be very expensive. Four of a kind is the worst 5 possible starting hand in Omaha, in contrast to most other poker games, where it is exceptionally strong. [6]

Straights and flushes 5 are ignored when judging low hands. Low hand ranks from best to worst: 5-4-3-2-A (the wheel), 6-4-3-2-A, 6-5-3-2-A, 6-5-4-2-A, ..., 5 8-7-6-5-4. Low hands can thus be read as numbers between 54,321 and 87,654 (with the exception of any number that 5 has a pair, i.e. 54,322). The lowest number that any player can make, while ordered from high card to low, 5 is the best possible low hand in play. For example: 2 3 5 6 7 wins over A 2 3 5 4 8[7]

Pot-limit Omaha [edit]

The worst starting hand in Omaha

Pot-limit Omaha (frequently shortened to PLO) is popular in Europe, 5 online, and in high-stakes "mixed games" played in some American casinos. This variant is more often played high only, but 5 can also be played high-low. To a still greater degree than in Limit Omaha Hi-Lo, PLO is a game of 5 drawing, when drawing, to the nut hand.[8] Second best flushes and straights can be, and frequently become, losing hands, especially 5 when a player is willing to commit their entire stack to the pot. Furthermore, because of the exponential growth of 5 the pot size in pot-limit play, seeing one of these hands to the end can be very expensive and carry 5 immense reverse implied odds.

Wraps [edit]

In poker, an out is any unseen card in the deck that will give 5 a player the best hand. A wrap is a straight draw with nine or more outs.[9] This is called a 5 wrap because the player's hole cards are said to wrap-around the board cards. In Texas hold 'em, where players have 5 two hole cards, the greatest number of straight outs possible is eight; however, in Omaha, there are four hole cards, 5 which can result in straight draws which can have up to 20 outs. An example of a twenty-out wrap

is 5 J 10 7 6 on a flop of 9 8 2. To hit a straight, any of the following cards 5 is needed: 5 5 5 5 6 6 6 7 7 7 10 10 10 J J J Q Q 5 Q Q.

Redraws [edit]

A desirable hand to have in PLO is the current best hand with a redraw. For 5 example, if the board is Q J 10, and the player has A K Q Q, then not only do 5 they have the current best hand possible (their ace-king makes the ace-high straight), but they also have a redraw with 5 the two queens in their hand because if the board pairs, they will make a full house, or four queens. 5 A K Q Q would be an even better hand because it has flush and royal flush redraws as well. 5 In fact, with the Q J 10 board, A K Q Q is approximately an 80-20 money favorite over a 5 random hand containing ace-king (see freerolling). Even a pair of queens with any two spades is better than 55-45 against 5 a random ace-king hand.

Omaha Variations [edit]

The most common variations of Pot Limit Omaha high are Five-card Omaha, commonly 5 referred as "Big O" very popular in Southeastern United States as a home game and Six-card Omaha or 6-O which 5 can be found in many casinos across the UK. Some online poker rooms support Five-card Omaha, Six-card Omaha and Courchevel.

"Big 5 O" (occasionally called Five-card Omaha or 5-O) began appearing in Southern California in 2008 and had spread to most of 5 the card rooms in the area by the end of the year.[citation needed]

Sometimes the high-low split game is played with 5 a 9 or a 7-high qualifier instead of 8-high. It can also be played with five cards dealt to each 5 player instead of four. In that case, the same rules for making a hand apply: exactly two from the player's 5 hand, and exactly three from the board.

Courchevel [edit]

Courchevel is named after the high-end ski resort in the French 5 Alps. According to the urban legend, bored tourists wanted to play a version of poker no-one has ever played before, 5 so they came up with this game. The place where Courchevel was most commonly played was the Aviation Club de 5 France in Paris. That casino is now closed.[10]

In the game of Courchevel,[11] players are dealt five hole cards rather than 5 four.

Simultaneously, the first community card is dealt. Following an opening round of betting, two additional community cards are dealt, 5 creating a 3-card flop, where the structure of the game is then identical to standard Omaha. Still, exactly two of 5 the five hole cards must be used.

Courchevel is popular in France but its popularity has expanded in other parts 5 of Europe, particularly the United Kingdom. Courchevel is also available in a hi-low 8 or better variety, and while Courchevel 5 is rarely offered on any of the major online poker sites, as of 2024, hi-low sit-and-go games at the micro 5 stakes level can be found taking place several times a day on Pokerstars, which had the game since 2013.[12]

A morte de sete trabalhadores humanitários blackjack na blaze Gaza provocou críticas sem precedentes dos líderes europeus, que estão intensificando os pedidos por um cessar-fogo e nalguns casos interrompem as vendas para Israel à medida a guerra aumenta.

O comboio World Central Kitchen aguçou o dilema para os políticos europeus, que estão espremidos entre apoio de um aliado com terrível ataque blackjack na blaze 7 outubro (horível) e crescente pressão pública no sentido da interrupção duma guerra sobre as quais têm pouco controle.

O primeiro-ministro do Reino Unido, Rishi Sunak disse que ficou "chocado" com a morte dos trabalhadores humanitários.

Assim como a Polônia, que perdeu um de seus cidadãos e cujo ministro das Relações Exteriores Radek Sikorski expressou "indignação moral".

Além da Europa, o primeiro-ministro canadense Justin Trudeau disse que atacar trabalhadores humanitários é "absolutamente inaceitável", e Anthony Albanese afirmou ainda estar indignado.

Israel disse que o ataque, no qual mataram os trabalhadores humanitários e seu motorista palestino foi um erro trágico. Seus militares demitiram dois oficiais do exército israelense para repreendi-los dizendo ter violado as regras da força militar blackjack na blaze combate

Ataque transfronteiriço de Gaza blackjack na blaze 7 outubro, aliados europeus Israel fortemente apoiado seu direito a revidar.

beira da fome.

Um tribunal holandês ordenou que a Holanda parasse de exportar peças do caça F-35 blackjack na blaze Israel – embora o governo neerlandês tenha dito nesta segunda-feira (24).

A conclusão do Tribunal Internacional de Justiça é que há um "risco plausível" blackjack na blaze Gaza e parar o envio das armas para Israel.

"Acredito que não temos escolha a menos do que suspender as vendas de armas", disse Alicia Kearns, parlamentar dos conservadores governantes e presidente da Comissão para Assuntos Externos. As licenças britânicas exigem um destinatário blackjack na blaze conformidade com o direito internacional humanitário."

A suspensão das vendas de armas seria uma importante declaração política da Grã-Bretanha, mas não faria grande diferença para a guerra. A Inglaterra vendeu apenas 42 milhões dólares (53 milhão) blackjack na blaze equipamentos militares e defesas contra Israel no ano 2024 ndia Netanyahu disse blackjack na blaze um telefonema na quinta-feira que o apoio contínuo dos EUA para a guerra dependia de Israel tomar mais medidas com vistas à proteção da população civil e trabalhadores humanitários. Horas depois, israelenses anunciaram uma nova rota humanitária até Gaza aumentando assim as quantidades do alimento no território israelense

A ministra das Relações Exteriores da Alemanha, Annalena Baerbock disse na sexta-feira que a República Federal Alemã espera "que o governo israelense implemente seus anúncios com rapidez".

"Sem mais desculpas", escreveu ela no X - um tom que teria sido impensável há poucos meses.

A Alemanha é o segundo maior fornecedor de armas para Israel e aprovou 326,5 milhões euros (354 milhão dólares) blackjack na blaze exportações da defesa no ano passado.

Questionada na sexta-feira sob que circunstâncias a Alemanha consideraria suspender as entregas de armas para Israel, o porta voz do governo Christiane Hoffmann respondeu: "as exportações são sempre decisões caso por processo... levando blackjack na blaze consideração questões políticas e dos direitos humanos".

Bar-Yaacov disse que uma decisão dos países europeus de interromper o fornecimento do armamento, a menos blackjack na blaze conformidade com as leis internacionais "faria grande

diferença" ao aumentarem os esforços para tomar suas próprias medidas duras.

"A questão", disse ela, é: quanta pressão e quanto de alavancagem o presidente Joe Biden está preparado para colocar no primeiro-ministro Netanyahu a fim garantir que essa guerra termine?".
