1) What is Team Poker® (TP)

Team Poker® is the Patented System that allows both

Individuals and Teams to compete in 2 poker tournaments. Any poker game can be used in TP

tournaments. Tournament Directors can split the Prize Pool Payouts from 2 0-100% to the

individuals or teams. As example a typical split might be 60% to Teams and 40% to

Individuals; 2 or, Teams could play for “Trophies” only.

WHY TEAM POKER® - WE MAKE POKER

A TEAM POKER®!

The Patented Scoring, Seating Protocol, 2 and Handicap Process makes SKILL

MORE OF A FACTOR IN TOURNAMENT POKER.

Team Poker® brings the Synergism and Camaraderie

to poker 2 that only teams can. Team Poker® provides the potential for More Interest,

Video and Production or Tournaments, and Local to 2 World Championship Events. Team

Poker® provides the potential for Team and Individual Betting and New Poker eSport

Online.

2) How is 2 Team Poker® (TP) Played

TP is a poker tournament system not a poker

game. Any Poker Game can be used with 2 the TP System. Individuals play TP tournaments

games like they would any other poker tournament. There is no difference in 2 how the

poker games are played by the individuals. TP is a Team Scoring, Team Handicapping, and

Seating Protocol System 2 that Tournament Directors can structure as they see fit for the

best results for their Poker Room.

Tournament Directors (TD) determine 2 what size teams

they want in any specific tournament. Any size team is possible (e.g. Teams of 2, 3, 4,

2 Players etc., and Classes of Teams (e.g. Men VS Women, Countries VS Countries, etc.)

can overlay any tournament as well. 2 Also, TDs can structure the team size to vary (e.g.

Max and Min Size of Teams) in the same tournament 2 using the TP Handicap System (e.g. 4

Max – 2 Min players per Team; 3 Max – 1 Min per 2 Team ... yes it is possible for teams

structures of 1 Individual with the TP Handicap).

The only change to the 2 normal poker

tournament rules (e.g. as identified in pokerTDA) is the TP Non-Contact Rule which does not allow Teammates to 2 play on the same table with Opponents; Therefore, Collusion is not possible among teammates in TP tournaments.

3) How does the 2 Team Poker® (TP)

Tournament System Work

TEAM POKER® PATENTED PROCESS allows both Individuals and Teams

to play and compete in poker 2 tournaments for a percentage of the prize pool. Teams can use the system to maximize their skill and luck to 2 a larger prize pool payout, and Poker Team League Play.

TP is played for Individual Finish Positions and payouts, as is

2 any other poker tournament. The Tournament Director determines and advertises the structure of the tournament prior to the start like 2 any poker tournament. However, in addition to typical tournament structures the directors also determines the size of the teams playing 2 and as mentioned the prize pool split between teams and individuals.

THREE

ELEMENTS OF THE TEAMPOKER® PROCESS:

TEAM POKER® - SCORING The 2 Individual Finish

Positions (IFP) of players determines payouts to Individuals like any poker tournament.

It is preferable that all IFPs 2 are calculated in the exit count, but the IFP count can

start at any manageable place the directors determine. The 2 Inverse of the IFP Count

establish the Individuals' Points that contribute to the Team Score and is used to

determine 2 the Team Finish Position and Payouts. The Tie Breaker for Team Score/ Finish Position and Payouts is the Team with 2 the Highest IFP.

SCORING – More Specific

Examples

TEAM POKER® is flexible so Tournament Directors can determine the structure that best fits 2 their poker room needs; and, any size team using the handicap is possible, or tournaments can require equal sized teams 2 to compete. Individuals place in the tournaments as they always have, based on their Individual Finish Positions (IFP) in the 2 Finish Count. The Count can start at any manageable point in the tournament, and there can be collective finishes in 2 large tournaments where several players have the same IFP as a result of the inability to determine and account for 2 unique exit positions. An individual's contribution to their Team Score (Points) is calculated from the inverse of their IFP to 2 the full Count.

Scoring Example: Where the Finish Count

starts at 100th place: 100th place receives 1 Team Point, 99th place 2 receives 2 points, 97th place receives 3 points, etc. ... until 1st place receives 100 points). The

individuals with the 2 lowest IFP (highest finish position), and the teams with the

highest COMPOSITE POINT SCORE place in the tournament and receive 2 payouts based on the Tournament Directors pre-published percentages. There is also a tie breaker as points can be equal (e.g. 2 tie breaker for teams with the highest IFP).

TEAM POKER -

HANDICAPPING Teams can Handicap themselves, when TDs allow team size 2 to vary, by playing with less than the maximum number of Players per Team allowed. The TP is a "Reverse 2 Handicap" so player can potentially maximize their team's skill factor (e.g.

If the Team Structure is 4 Max and 2 2 Min a team of 2 would have their team point score multiplied by the ratio of 4/2 or 2 X 2 the team points).

HANDICAPPING –

Examples

TEAMPOKER® HANDICAP is an optional way to play that allows team size to vary within the 2 same tournament and can enhance the skill factor even more while making it

easier to form teams. Individuals and Teams 2 can handicap themselves to maximize their return by allowing less than the maximum number of players per team to play 2 ('Reverse Handicap'). Each team pays the same entry fee. The TEAMPOKER® HANDICAP is the factor or ratio created by the 2 maximum number of players allowed per team divided by the actual. The factor is multiplied by the total team points 2 and thus equalizes their score relative to the other teams in the tournament.

Handicapping Example: Four players per

team max. Two 2 players play as a team and pay full team entry fee. Their handicap is $4/2 = 2$. Their team points 2 (composite of their individual points) "Y" is multiplied by their handicap for their total team score: $2 \times 'Y' = 2$ total team score ... which is compared to the other team scores to determine

TEAM POKER® - SEATING PROTOCOL The TP

2 NON-CONTACT or No-Contact, Protocol does not allow Teammates to play on the same table with Opponents. There is no possibility 2 of Collusion among teammates with the No-Contact Rule. During consolidation of tables, teammates are directed to tables without their mates. 2 Teammates can play among themselves or Heads-Up for example to facilitate table consolidation. A unique situation that can happen at 2 the end of a tournament with three (3) player left and two are teammates; Therefore, to maintain the NO-Contact rule 2 a teammate has to wait for the other table to eliminate one player before having a final table of 2 2 Players to finish the tournament.

SEATING PROTOCOL –

More Specifics & Examples

TEAM POKER® NO-CONTACT TEAMPOKER® is designed for cash play and 2 serious poker to meet all existing gaming rules and regulations (See PokerTDA). Seating Protocol: Randomness in seating and consolidation of tables 2 however, takes into consideration that no players from the same team are allowed on the same table until and unless 2 they can play heads up, or they, or their teammates, are the only players left in the tournament. Until and 2 unless consolidation can take place, teammates may play among themselves; or, there must be enough tables left at the end 2 of any tournament to assure no teammates are playing together on same table with an opponent.

When teammates can compete heads 2 up with an equal number of players left per table, or there are no other opponents left in the tournament, 2 teammates compete for individual finish positions (IFP). Therefore, by never allowing teammates to be on the same table together with 2 opponents, there is no potential for 'cooperation', 'collusion', 'slow playing', or 'chip dumping' among teammates; and all Poker Tournament Directors 2 Association Rules are maintained (see PokerTDA).

Seating Protocol

Examples: TEAMPOKER® NON-CONTACT SEATING PROTOCOL: Follow PDF NO-CONTACT SEATING

PROTOCOL to see the 2 specifics graphic examples on the process to assure teammates are never allowed to play on the same table with each 2 other and competitor teams are. FULL-CONTACT TEAMPOKER® is a variation which allows players from the same team to play together on the 2 same table and is used for a Unique Pro Poker Player Team Play, Social, Free, and Fund Raising. We call it the 2 TEAMPOKER® FULL-CONTACT CHALLENGE Tournament Structure.

4) What is the Option for TP Full-Contact Seating Protocol

The TP

System offers an Optional Seating 2 Protocol for "Full-Contact" where the Seating Protocol is Totally Random, and Teammates can play on the same table with Opponents. 2 Also, Seating Protocol can be set so Teammates are equally distributed with Opponents on the same tables, Since Teammates are 2 known it does not fit the true definition of "Collusion", but it is obvious that teammates could use signals or 2 chip dumping to help

their team. Although Full-Contact TP is not the preferred TP seating protocol we maintain this option as a unique and interesting way to play with poker teams and that TDs may decide to play for Special 2 Full-Contact Events. A tournament structure that may work with TP Full-Contact are teams of 2 players with teammates on the 2 same tables.

5)

How Can Team Poker® Overlay Prize Pools

Team Poker® can be used as a Team Trophy and

Ranking Event 2 Only where the Teams do not win any percentage of the prize pool, but

rather are for Trophies, Rank, Added 2 Prize Pool Payouts, or Bragging Rights. Using TP

any Poker Game Tournament Can Overlay Poker Teams for Added Payouts, Ranking 2 and Trophies.

a license and Download the 2 Poker Software from our Partners and use it through a

limited license agreement in their Rooms. See the Links to 2 our Partners to see their
