Broad Strategy View

Hand 6 Specific View

I want to look at

the following hand through two different lenses. 1) Through the lense of broader strategy. With 6 regard to minimum defense frequency and dividing my whole range I am playing in this spot in different parts for different actions. 2) 6 Through a hand specific lense. What is best with this certain hand in this situation, vs the estimated range of Villain. PokerStars, -R\$0.02/\$0.05 6 - 5 players UTG (Hero): R\$11.96 (239 bb) CO: R\$3.37 (67 bb) BU: R\$17.41 (348 bb) SB: R\$4.29 (86 bb) BB: R\$5.00 (100 bb) (\$0.07) Hero is UTG with J, SB 6 calls R\$0.13, (\$0.35) ASB checks, (\$0.35) K, SB calls R\$0.35 (\$1.55) JSB checks, \$1.55 (Rake: R\$0.06) UTG (Hero) wins R\$1.49 My standard opening range from HJ on a table like 6 this, where there is no clear reason for adjustments looks like this 66+, A2s+, KT+s, QT+s, JT+s, T9s, 98s, 87s, ATo+, KJo+ First problem I have in this hand is estimating SB's 6 calling range. For an opponent who also 3bets some I came up with this: JJ-77, AQs-A9s, KT+s, QT+s, JT+s, T9s, 98s, AQo-ATo, 6 KJo+, QJo+ With the flop coming AI want to figure out, which parts of my range I want to bet and which 6 parts I want to check. Generally my approach is betting the strongest hands, hands that have equity on the flop but need 6 a ton of protection and my weakest hands which still have some equity. I figured looking at our equity heatmap might 6 be interesting. After looking at the heatmap, I came up with this plan for betting and checking with our range: red = betting 88-66, 6 AdAh, AdAc, AhAc, ThTs, ThTc, TsTc, AdKd, AhKh, AcKc, AdQd, AhQh, AcQc, KcQc, AdJd, AhJh, AcJc, KcJc, QdJd, QsJs, QcJc, 6 AhTh, AcTc, KcTc, Ah9h, Ah8h, Ah7h, Ah6h, Ah5h, Ad4d, Ah4h, Ah3h, Ah2h, KJo, AdKh, AdKs, AdKc, AhKd, AhKs, AhKc, AcKd, 6 AcKh, AcKs, AdQh, AdQs, AdQc, AhQd, AhQs, AhQc, AcQd, AcQh, AcQs, AdJh, AdJs, AdJc, AhJd, AhJs, AhJc, AcJd, AcJh, AcJs, 6 AdTh, AdTs, AdTc, AhTs, AhTc, AcTh, AcTsother = checking KK-JJ, 99, 98s, 87s, KdQd, KhQh, KsQs, KdJd, KhJh, KsJs, QhJh, KhTh, 6 KsTs, QhTh, QsTs, QcTc, JhTh, JsTs, JcTc, Ad9d, Ac9c, Th9h, Ts9s, Tc9c, Ad8d, Ac8c, Ad7d, Ac7c, Ad6d, Ac6c, Ad5d, Ac5c, 6 Ad3d, Ac3c, Ad2d, Ac2c, KQo So we would bet 59% and check 41% of our range. As you can see, JJ would 6 be in the checking range, so I'm fine with my in game decision. Other reasons are, that it is probably pretty 6 close on a Broadway heavy rainbow board to get a value bet vs Villain's calling range. Depending on what he continues 6 with we have at max 52% equity vs his continuing range. Other than that, if we get x/r'ed there is probably no 6 way to continue and Villain would be able to deny us all of our equity. Turn comes the K Not to good for 6 our checking range on the flop as we lose as massive amount on this turn card. Villain bets 71% pot so we 6 have a MDF of 41%. So looking at our heatmap again to construct raising, calling and folding ranges. Could come up with 6 a plan like this red = raise KdKh, KdKs, KhKs, QhJh, Ac9c, Ac8c, Ac7c, Ac6c, Ac5c, Ac3c, Ac2c brown = call QQ, KdQd, KhQh, 6 KsQs, KdJd, KhJh, KsJs, KhTh, KsTs, Ad9d, Ad8d, Ad7d, Ad6d, Ad5d, Ad3d, Ad2d, KdQh, KdQs, KdQc, KhQd, KhQs, KhQc, KsQd, 6 KsQh, KsQc blue = fold JJ, 99, 98s, 87s, QhTh, QsTs, QcTc, JhTh, JsTs, JcTc, Th9h, Ts9s, Tc9c This would leave me at 6 64% of my range I am defending but with card removal effects this hits exactly 41%. So from the lense of 6 broader strategy, calling JJ here is probably a mistake. Nothing to add, still a standard open from this position. If I would 6 bet on this flop, which part of Villain's range would call a bet? This is something I'm still struggling with, but 6 let's give it a try. yellow = call JdJc, ThTs, ThTc, TsTc, KQs, AdQd, AhQh, AcQc, AdJd, AcJc, KdJd, KcJc, QdJd, QcJc, 6 AhTh, AcTc, KhTh, KsTs, KcTc, QhTh, QsTs, QcTc, JcTc, Ad9d, Ah9h, Ac9c, Th9h, Ts9s, Tc9c, KQo, AdQh, AdQs, AdQc, AhQd, 6 AhQs, AhQc, AcQd, AcQh, AcQs, AdJc, AhJd, AhJc, AcJd, AdTh, AdTs, AdTc, AhTs, AhTc, AcTh, AcTs, KdJc, KhJd, KhJc, KsJd, 6 KsJc, KcJd, QdJc, QhJd, QhJc, QsJd, QsJc, QcJd I guess he calls all TPs, Ts, GS and JJ and gets rid 6 of underpockets and 98s. I hope this is reasonable. Vs this range we do clearly not have a value bet 6 w/ JJ as we only have 44% equity. So I guess check is the best option. Also we do have a 6 decent amount of showdown value and depending on T and R we might be able to get to SD ahead 6 and don't want to overplay this hand. The K on the turn helps him immensely. Also I think he could take 6 a stab at the pot with close to his entire range. We do have 6 outs vs his pairs and two 6 pairs and sets of TT and 3 to chop if he holds QJ (which we

block). I'm really kind of lost 6 in this spot, don't know if we can call or it's always a fold. But I'm pretty sure that raising 6 is not the best option. Problem with raising is, that we isolate ourself vs his better hands. This is what I see 6 him calling definitely: brown = call ThTs, ThTc, TsTc, QdJd, QcJc, AhTh, AcTc, KhTh, KsTs, AdTh, AdTs, AdTc, AhTs, AhTc, AcTh, AcTs, 6 QdJc, QhJd, QhJc, QsJd, QsJc, QcJd This is what he could call if he is not only calling two pair + ThTs, ThTc, 6 TsTc, AdQd, AhQh, AcQc, KdQd, KhQh, KsQs, AdJd, AcJc, KdJd, QdJd, QcJc, AhTh, AcTc, KhTh, KsTs, Ad9d, Ah9h, Ac9c, AdQh, 6 AdQs, AdQc, AhQd, AhQs, AhQc, AcQd, AcQh, AcQs, AdJc, AhJd, AhJc, AcJd, AdTh, AdTs, AdTc, AhTs, AhTc, AcTh, AcTs, KdQh, 6 KdQs, KdQc, KhQd, KhQs, KhQc, KsQd, KsQh, KsQc, KdJc, KhJd, KhJc, KsJd, KsJc, QdJc, QhJd, QhJc, QsJd, QsJc, QcJd Against either 6 continuing range we're crushed. In the first case we would at least have enough FE, but I doubt that he 6 calls that tight on my (too) small raise. Rivering a set usually is nice. But here there is just no way 6 we do have a value bet against his calling range. We do not even have a value bet against his whole 6 range OTR. So I guess the best play would have been to check behind and get to SD with the best hand 6 a good amount of the time. Played it right on 50% of the street. Bad play on Turn and River, just got 6 lucky. Gotta think more about why I'm betting in game and about if I have value FE or whatever to justify my bets. Also 6 gotta do some serious work on bet sizes. Just a mess at the moment. I know it's a wall of text 6 and probably pretty convoluted, but I wanted to share with you how I work through a hand if I really 6 think about it in depth. Maybe someone spots some logic flaws or misconceptions, then I'd be more than happy if you 6 call me out. (wouldn't be surprised if nobody wants to read that much text though) Now on to the review of yesterday's 6 session and then to the tables. See y'all and GL

Brasil utilizará tecnologías nuevas para minimizar impactos ambientales en exploración de petróleo en la Amazonía

La ministra de Ciencia, Tecnología e Innovación de Brasil, Luciana Santos, afirmó este lunes que el país utilizará nuevas tecnologías para que la polémica exploración de petróleo en la región de la Foz do Amazonas genere los mínimos riesgos ambientales posibles.

Exploración de petróleo y energías limpias

Durante su participación en la Conferencia Internacional sobre Tecnología de Energías

Renováveis (CITER), que se realiza en la ciudad brasileña de Teresina, la ministra defendió que la transición energética del modelo de exploración del petróleo a las energías limpias es lenta y "no hay forma de que Brasil renuncie" a la exploración del combustible fósil.

Nuevas tecnologías para minimizar impactos

No obstante, la ministra afirmó que Brasil cuenta con nuevas tecnologías para minimizar los impactos de dicha exploración, como el caso propuesto para la región de la Foz do Amazonas, muy criticada por todo el sector ambientalista.

Transición energética y necesidad de exploración

"En el debate sobre la exploración del petróleo, Brasil también posee la principal tecnología de exploración de petróleo en aguas profundas. Han pasado décadas, y todos nosotros sabemos que es preciso un cambio de matriz, y estos cambios no siempre son tan rápidos. Pueden ser cambios más tardíos, porque siguen siendo una necesidad. No hay aún una posibilidad de inversión o de cambio de esa base de esa matriz, que también es una matriz energética", afirmó Luciana Santos.

Exploración en la Guayana

Según la ministra, la Guayana también explora la región, que también se encuentra en territorio brasileño. "Es una situación en la que te enfrentas a una riqueza, que no deja de ser una riqueza, y debes desarrollar la tecnología para reducir el impacto ambiental", dijo.

Tecnología y reducción de impactos ambientales

Luciana Santos explicó que esta tecnología busca reducir los impactos ambientales. El tema ha provocado un choque de discursos entre Petrobras y el Ministerio del Medio Ambiente, con la participación de senadores de los estados de Amazonas y Amapá.

Objetivos de la CITER

La CITER busca fomentar el diálogo entre diferentes sectores de la sociedad, difundiendo conocimientos sobre las innovaciones tecnológicas más recientes en el campo de las energías renovables, con un enfoque especial en el hidrógeno verde. Además, busca aumentar la conciencia sobre los cambios climáticos y la importancia de los Objetivos de Desarrollo Sostenible (ODS) y el Acuerdo de París.
