How to Download the Bet365 App – My 4 Guide?

Well, while it is no news that Bet365 has both an IOS and Android version of their app, what I 4 felt was particularly intriguing is how easy it is to get the app on your phone. I am not new 4 to betting apps, but when I say the app is easy to download and install, it truly is.

Devices Supported

Bet365 is 4 easily one of the favourite betting companies around. The app and mobile site offered by the company manages to offer 4 all betting options that one would normally get on the desktop. I was not too surprised to learn that the 4 mobile app from Bet365 manages to offer pre-match and live betting options. All sports are listed in an alphabetical order 4 just like on the desktop website. You will also be able to encounter additional features like live streaming. Even though 4 Apple and Android devices are the most common, I started wondering about the support provided by Bet365 for older phones 4 and those running on Blackberry and Windows operating systems. If you are one of those with the Windows or BlackBerry 4 devices, the mobile site is the way to go. I could even go with Bet365's mobile site even on Apple 4 and Android devices. Therefore, Bet365 did not limit me in terms of the devices I was using to access the 4 site.

Downloading for Android

First, visit the Bet365 official mobile site.

Configure your phone setting to allow download from unknown sources in the 4 phone settings
Reload the mobile site once more and click on the View all Bet365 betting apps at the page's footer

Download and install

Downloading for IOS

Visit the iTunes Store on your 4 device.

Search for the Bet365 app

Click to start your download.

Install and get right into the action.

Setting up Your Account

Right after successfully 4 downloading the application, I followed these steps to set up my account quickly.

Once you are redirected fill in the personal details form accurately

Verify your account before 4 going ahead and funding.

Similar to many other operators, there is a bet365 sign up offer that I immediately qualified for 4 on my first sign-up to the platform. With my first £5 deposit on the account, I was awarded a welcome 4 bonus in form of Bet Credits.

How to fund your account?

Bet365 has a variety of depositing methods that you ought to 4 take advantage of. I am always inclined to trust an operator with a myriad of payment methods; however, if you 4 want to confirm whether the operator supports your preferred banking or e-wallet option, go ahead and check on their list 4 of depositing options. One general rule of thumb that I use when depositing is using e-wallets. Over time I have 4 found them to be convenient and also very reliable. This was the same with bet365, I was happy to find 4 my preferred e-wallet and used it to deposit money on my online betting account.

Play on Bet365 app

Sports betting on bet365 4 mobile

This operator simply has too many sports to discuss all of them here. Expect to find different tournaments form a 4 variety of competitions across the globe. If you take a look at the list of available games on the website, 4 it is quite evident that bet365 puts every punter into consideration. This bookmaker features all the major sporting events, including 4 football, tennis, American football, among many others. I was also impressed to find some obscure and more niche sporting events, 4 for instance, badminton, table tennis, and even bowl. In most sports, bet365 offers a variety of markets for both major 4 and minor leagues from around the globe. Football is indeed this bookmaker's strong suit, and you will quickly realize the 4 plethora of leagues that you can bet on. Bet365 also remains to be among the few operators to capitalize on 4 the fast-growing E-sport market, head over to their website and see the variety of betting opportunities on this particular niche.

Play 4 bingo on bet365 app

While bet365 is well known for the variety of sports games, I was impressed with the extensive 4 attention given to other non-sport games as well. I am a bingo fan and getting close to 20 online rooms 4 with a variety of games was great. The recent closure of bingo halls in the nearby regions is a sign 4 that online bingo is the way to go. Bet365 did not just provide me with sports betting options, but the 4 handful of bingo rooms were a nice change. I was able to use the app and access many bingo games 4 like 75-ball bingo and 90-ball bingo. There were scratchcard games on offer as well. If I thought that the news 4 could not get any better, I was in for a shock to learn that Bet365 provides the juicy bingo offers 4 even on mobile devices.

bet365 casino app

If I wanted to gamble on the range of casino games provided by Bet365, I am not just limited to the desktop site. They can always use the mobile casino app from Bet365 to access the decent set of games provided. I did enjoy myself with the blackjack and roulette games, while there are also several slot games should I decide to go down this route. Despite being on the Bet365 app, I had the comfort of being able to play the live casino games, where dealers are using webcams to provide an interactive experience. I noticed that a major advantage of using the Bet365 app to play casino games was the ability to use the multiplayer version of some casino titles.

Play poker on mobile

Bet365 has several online poker games that you could enjoy straight from your phone. There are many tournaments and competitions that you could be part of hence giving you a complete poker experience. I will be able to recommend the poker experience on the Bet365 app without second thoughts. It is excellent irrespective of your experience levels with the game. Some precautions and considerations have to be taken up by newcomers, but I am sure that the Bet365 app will take care of most complexities. I was soon in the company of big boys when using the app to play poker titles and I am pretty confident that even the novice will be able to hit this condition soon.

How to place a bet on the app?

There are different kinds of bets that you could place right from your app. However, let's talk about placing the simplest type of bet, which is a single bet. These are the steps that I followed and successfully made my first bet.

Log into your account
Select your preferred sport from the navigation pane
Pick a market of your choice
Choose on the amount of stake you intend to wager this will add up on your bet slip
Enter your stake
Confirm if everything is correct before sending the bet

If you are new to betting, the variety of bets to choose from can be quite confusing, so, as you are still learning, the single bet is a better option. Of course, you will engage in other complicated betting options as you learn the ropes.

Best mobile app features

Coming in with a prior perception that bet365 is among the top bookies, I wasn't surprised to experience the great features that the app comes with. In such a competitive space, the only way to remain at the top is by outdoing yourself, and this operator is doing exactly that. Here are some of the best features from the mobile apps

Live alerts

This feature will keep you up to date with the development of your selected matches. You have the luxury of customizing the alerts depending on what you would like to get notified on, for instance, the beginning of a game or when a goal is scored. This feature was useful for me since I didn't have to be on the app to receive the notifications.

So far, this feature has been introduced on a handful of sports like horse racing, tennis, and football. However, it will not be long before all sports tend to have this feature. I was especially impressed with one element of the live alert feature and it will be the customisable nature. I was able to make sure that I received notifications and alerts for games and situations that were important to me. For example, I can set up the alerts in such a way that the app informs me when there are yellow cards issued in a football game.

Filter search

This feature will help you search for your favorite teams effortlessly without breaking a sweat. Given the number of games and markets on this platform, this feature is absolutely helpful in saving you from the hassle of digging around for a game.

Match live

This function will enable you to follow a variety of sports in real-time. This amazing service allows you to track and be part of the experience as it unfolds without missing the crucial moments. I loved how the match-live console updates and displays the critical moments of a particular sport, even going as far as tracking the movement of a player across the pitch. In all fairness, the match live experience is as close as you can get to following a game live.

I found this feature quite useful when there are no streams on certain matches. This is a strong

possibility and I did not want to miss out on the action, as it would adversely affect my betting inputs. The live updates are only provided in text, but it at least kept me in touch with the action rather than being limited to guesswork. In some sports like football, the match live feature was useful in providing detailed information. In this instance, I was able to get updates about the goals, cards, corners, and more. I could even keep track of the possession numbers to gauge the control exerted by one team over the other.

Stats Radar

If I wanted to find a statistic about a game before deciding to place a wager, I can do so without visiting third party sites that sell the numbers. The mobile app from Bet365 does the job here by providing the various stats in one place. This is particularly useful when I was betting on sports like football, where the numbers can play a big role in deciding on the ultimate result. This feature was a game changer, as I was able to bet more efficiently.

Customer support

The customer support live-chat feature is, by far my personal favorite since I have successfully used it more than once. Often, an agent was always available to attend to my queries instantly; otherwise, all I had to contend with was a couple of minutes wait, and that was just about it. There is always a feeling of satisfaction knowing that you are attended to by another human on the other end.

Mobile app vs the Desktop site

The mobile app and the desktop site serve the function of complementing one another. While the app is good for betting on the go, the desktop site will give you a broader view especially when accessed through a larger computer screen. However, because people's schedules are usually busy, the mobile app is usually preferred by a majority because of flexibility that comes with betting from anywhere.

Pros Cons Variety of sports Minor glitches when the internet is slow Good odds The website could do better Variety of betting options Variety of payment methods

Bet365 App Review: Other Assets

User experience

The overall experience right from downloading the app, installation, and even betting is as smooth as it can get. The signature green and black appearance of the app and website were just right for my eyes. Navigation across various features of the app was quick and very responsive. The only time there was a delay was when the internet was not very stable. Nonetheless, the app is great and works just as good as the desktop site. The only advantage the app has over the website is the only flexibility that comes with betting on the go!

In-play betting

This review wouldn't be complete without discussing the in-play features available on the mobile app. By simply clicking on the in-play button, you will get to see what games are available for live betting. You also have the option of favoriting different leagues so that you can easily access them whenever necessary.

Live Broadcasting on mobile

Live broadcasting or streaming is an essential feature of any bookmaker. Bet365 has a variety of sporting events that you can live stream. However, this service is only accessible to those with funded accounts or those who have wagered within 24 hours. Bet365 is one of the leaders in the world of live streaming services that cover sporting events. Even by the bookmakers own admission, there are about 140,000 events available to watch on the app or desktop site. This is a huge number but I doubt that the site is exaggerating the numbers, as I found that almost every top match is covered on the site. If you are used to the quality of streams on the desktop site, there should not be much difference even if you are using the Bet365 app. This is because the Bet365 app does a good job of optimising the phone resources and the network. I did have to ensure that I was in a place where the network quality was good. If not, I would end up suffering frequent buffering and low quality streams.

Cash-out

This feature is easily one of my best thanks to the ease of cashing out from my mobile phone.

Bet365 App 4 Review-My Opinion

From my experience with this app, I sincerely feel that the app deserves a double thumbs up if not 4 a 5-star rating. This bookmaker is available across the globe and is available in multiple languages. I am a great 4 fan of the bet365 bingo games, and I love the many games available for this option. Bet365 is one of 4 the top betting places out there. It would be remarkable if the site did not provide a great mobile betting 4 experience. Thankfully, the app is just as good as the desktop in the through testing that I did. I was 4 completely satisfied with how the app behaves, operates, and seamless helps me place bets and enjoy casino games even when 4 I am not in front of the desktop.
